AT THE COUNTER

Made for the way you sell

Check a car in by its Saudi plate with odometer, fuel and a walk-around checklist, open a job card, assign the technician, track the bays live and invoice parts and labour on delivery.

Check-in by plate
Find a vehicle by Saudi plate, mobile, owner or VIN, and record odometer and fuel level.

Walk-around checklist
Spare tyre, jack, scratches, valuables and warning lights noted with the complaint.

Live job board
Open, in progress and completed jobs with a 'bays busy' count.

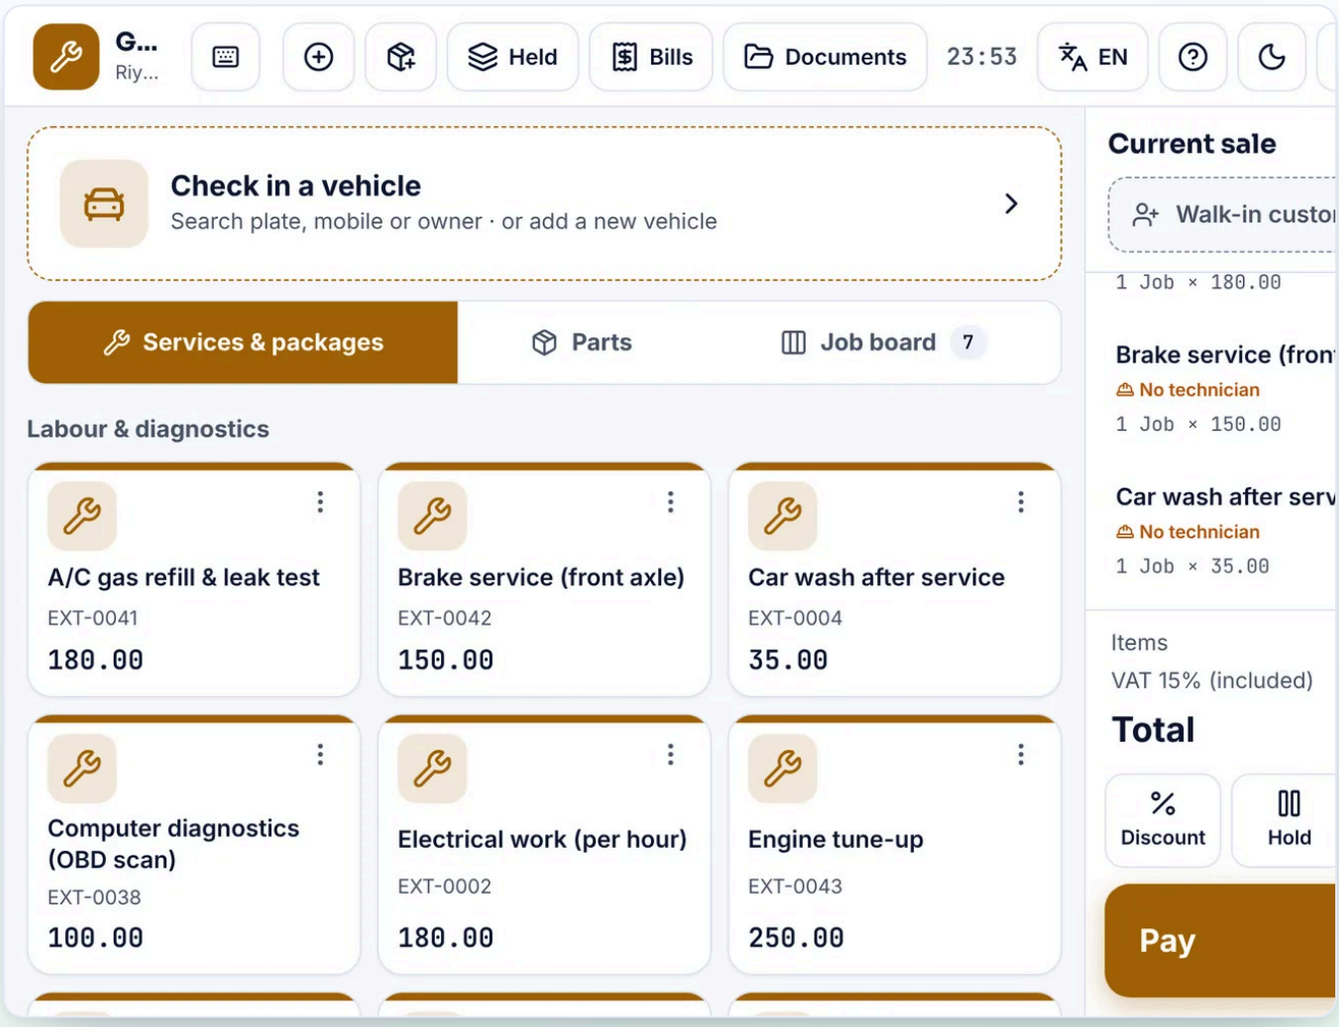

Technicians and hourly labour
Assign a lead technician per job or per line, with mechanical and electrical hourly rates.

Service packages
Minor and major service, front brakes, A/C regas, battery, and four tyres with alignment.

Service history
Every visit is kept per vehicle with the next service due.

Ideal for

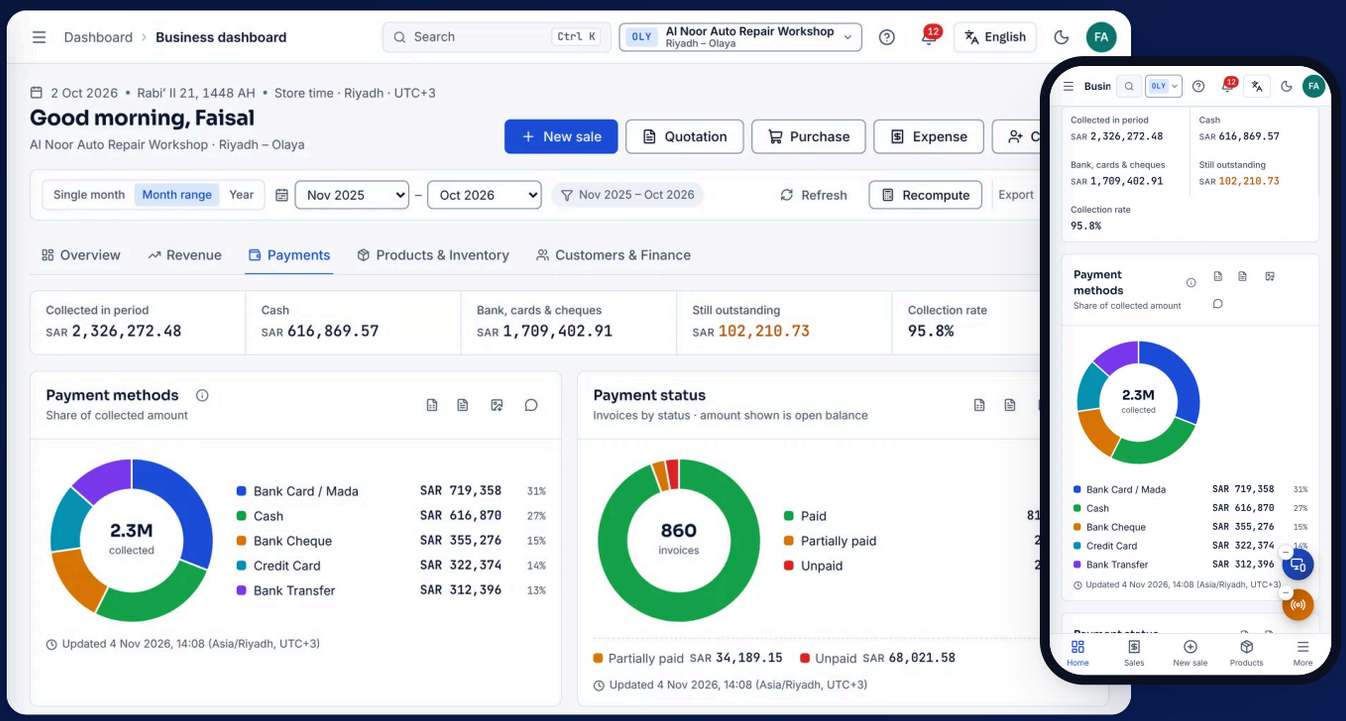

Auto repair workshops · Quick service centres · AC and electrical garages · Fleet maintenance

YOUR DASHBOARD

Your business at a glance

Sales, profit and what sells, in your own words, on the computer and the phone.

COMPLIANCE

ZATCA Phase 2 e-invoicing, built in

- **Cleared and reported.** Tax invoices are cleared and simplified invoices reported, with the status on every invoice.
- **QR code and signed XML** on every invoice, printed or sent on WhatsApp and email.
- **Bilingual tax invoices** in Arabic and English with your CR and VAT numbers.
- **Offline till.** Keep selling when the internet drops; invoices go to ZATCA when you are back online.
- **VAT 15% reports** ready for your return, plus credit and debit notes.

Phase 2 comes with the ZATCA e-invoicing add-on; every store gets the Phase 1 QR code.

Questions owners ask

Does it create job cards?
Yes. Each vehicle check-in creates or updates a job card with the complaint, checklist, technician and lines, and delivering the car invoices the job card.

Can I see a vehicle's history?
Yes. Service history is kept per vehicle, and the terminal warns when the odometer reads lower than the last visit.
