AT THE COUNTER

Made for the way you sell

Sell a whole Naimi carcass, a half or a hind quarter at its weight, or 1.250 kg of lamb chops from the counter scale's label. Cutting, mincing and delivery go on the same bill, carcass purchases from your livestock traders update stock and what you owe them, and waste is written off by the kilo so the profit you see is the profit you made.

Whole, half and quarter

Whole carcasses, halves and front or hind quarters priced per kilo and sold at their weight, apart from the cuts.

Sold by the kilo

Type the weight from the scale, or scan the scale's label and the weight and price are read from its barcode.

Cutting and mincing services

Cutting to order, mincing per kilo, vacuum packing, slaughter at the abattoir and home delivery on the same bill.

Carcass purchases

Record each delivery from your livestock traders and importers: stock goes up by the kilo and the supplier's balance follows.

Waste written off

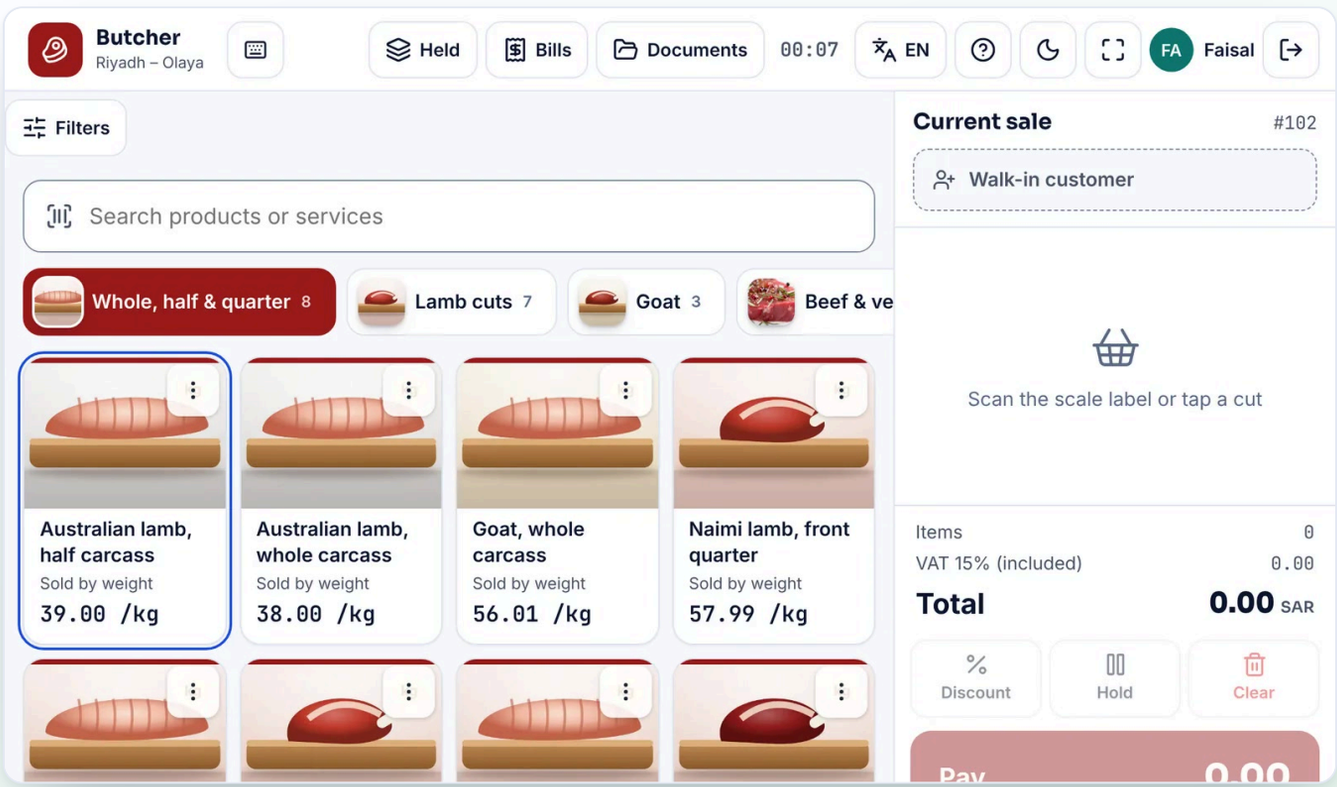

Trim, spoiled meat and drip loss are written off by the kilo with a reason, so stock and profit stay true.

Net profit every day

Sales less purchases and expenses for any day, month or year, by branch, in your own currency.

Ideal for

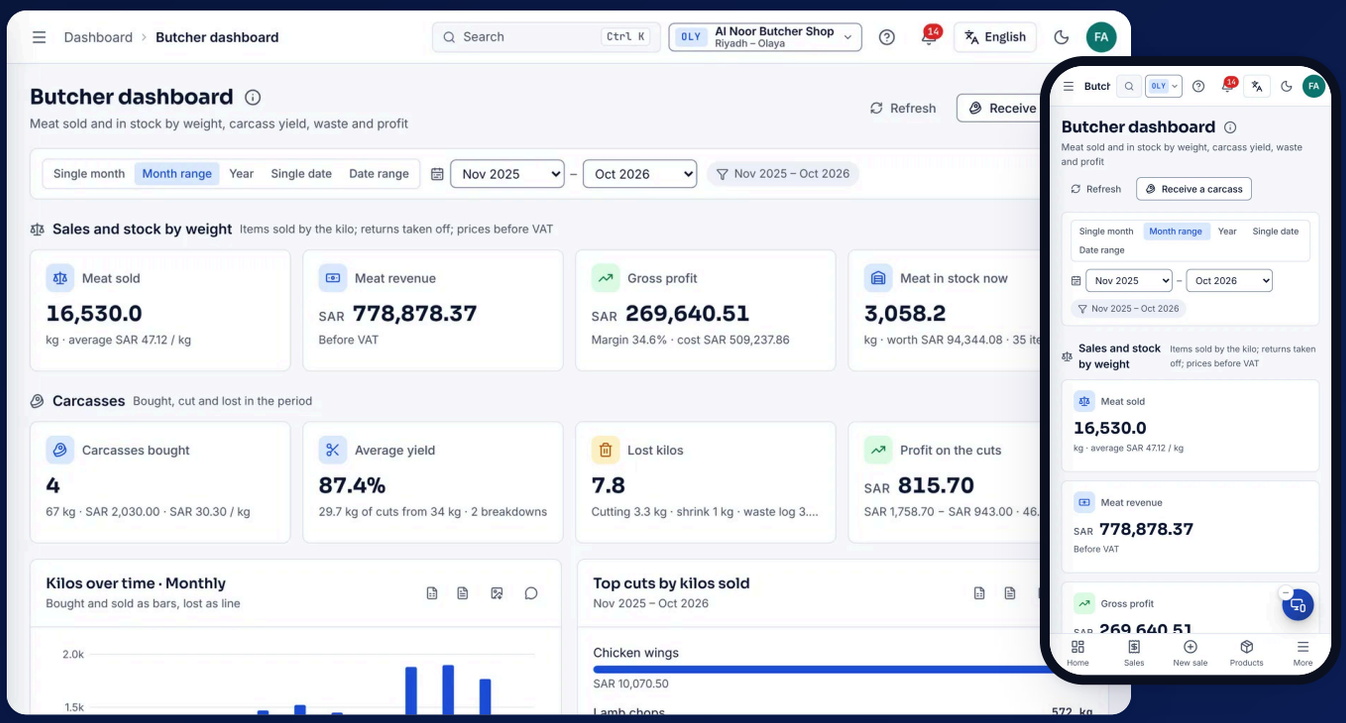

- Butcher shops and meat counters
- Lamb, goat, beef and camel meat sellers
- Poultry and fresh chicken shops
- Meat counters inside supermarkets

YOUR DASHBOARD

Your business at a glance

Sales, profit and what sells, in your own words, on the computer and the phone.

COMPLIANCE

ZATCA Phase 2 e-invoicing, built in

- **Cleared and reported.** Tax invoices are cleared and simplified invoices reported, with the status on every invoice.
- **QR code and signed XML** on every invoice, printed or sent on WhatsApp and email.
- **Bilingual tax invoices** in Arabic and English with your CR and VAT numbers.
- **Offline till.** Keep selling when the internet drops; invoices go to ZATCA when you are back online.
- **VAT 15% reports** ready for your return, plus credit and debit notes.

Phase 2 comes with the ZATCA e-invoicing add-on; every store gets the Phase 1 QR code.

Questions owners ask

Can I sell a whole carcass, a half or a quarter?
Yes. Each is its own product priced per kilo; weigh it and the bill shows the weight, the price per kilo and the total.

Does it read the labels from my scale?
Yes. A label whose barcode starts with 2 and holds the item code and the weight is read at the counter, and labels can also be printed from StartERP.
