CAR SHOWROOM & DEALER SOFTWARE (NEW & USED)

Software for car showrooms and used car dealers

New and used cars sold at the agreed price with the VIN, colour, buyer, bank finance or instalments, down payment and trade-in on the invoice, registration, tint and protection, and a deals board to delivery.

- ZATCA Phase 2
- Arabic and English
- Works offline
- Hijri and Gregorian dates
- StartAI built in

Built in Jeddah for Saudi businesses

AT THE COUNTER

Made for the way you sell

Sell a compact sedan at the price agreed on the floor: type the buyer, the VIN and the colour, choose bank finance with a 20% down payment over 48 months, take the buyer's old car as a trade-in and set the delivery day. The invoice names the VIN, the deal opens on the Deals board and moves through finance and registration, ready and delivered, and the Vehicle deals add-on shows what is overdue, the payment mix and the balance still to collect.

Every car by its VIN

New and used cars with make, model, year, engine, colour and mileage; the VIN is printed on the invoice line and the serial numbers add-on finds the car again.

Finance, down payment and instalments

Cash, bank or Islamic finance (Murabaha), in-house instalments or lease to own, with the down payment, the months and the monthly amount worked out for you.

Trade-ins

The buyer's old car and its agreed value go on the deal; the car comes into stock as a purchase from the customer and is sold again as a used car.

A deals board to delivery

Each deal moves from booked to finance and registration, ready and delivered; the Vehicle deals dashboard lists overdue deliveries, the next 14 days and the days a deal takes.

Registration, protection and after-sales

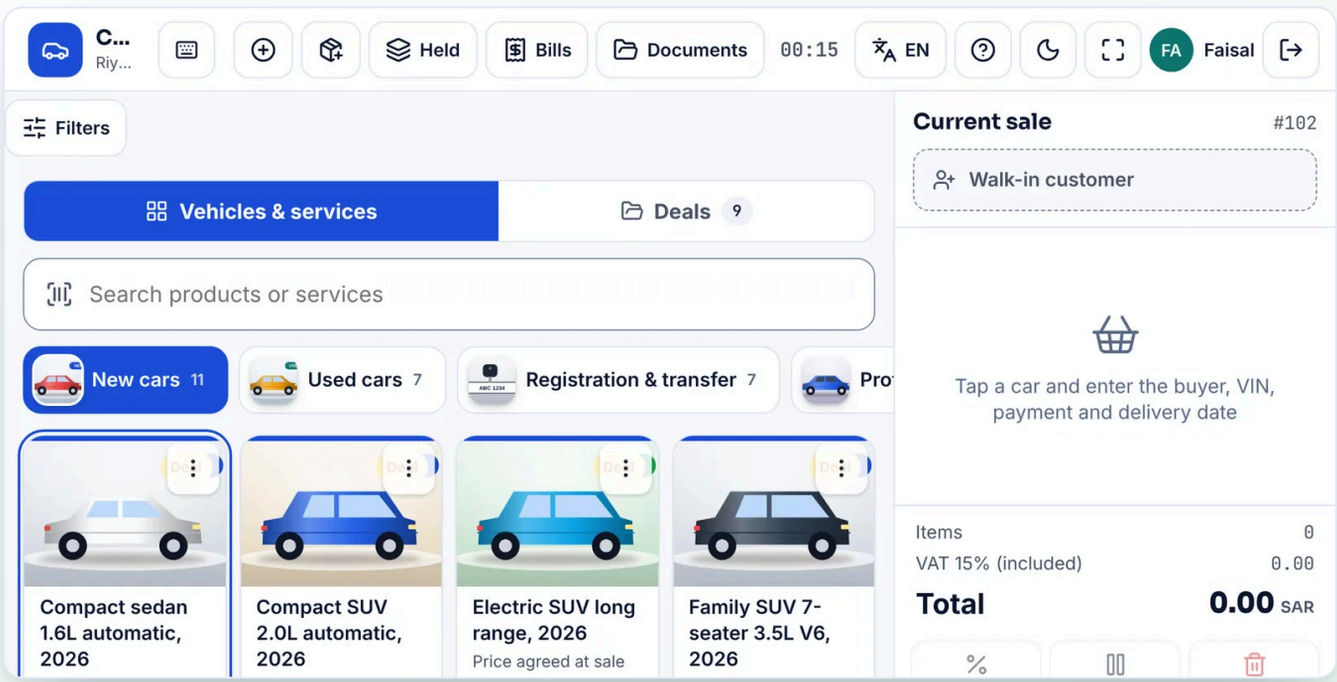

Number plates, ownership transfer, insurance, extended warranty, service packages, tint, ceramic coating and PPF sell beside the car.

Buyers and test drives

Leads and test drives are followed in the CRM add-on, and every buyer's statement shows the car, the deposit and what is left to pay.

Ideal for

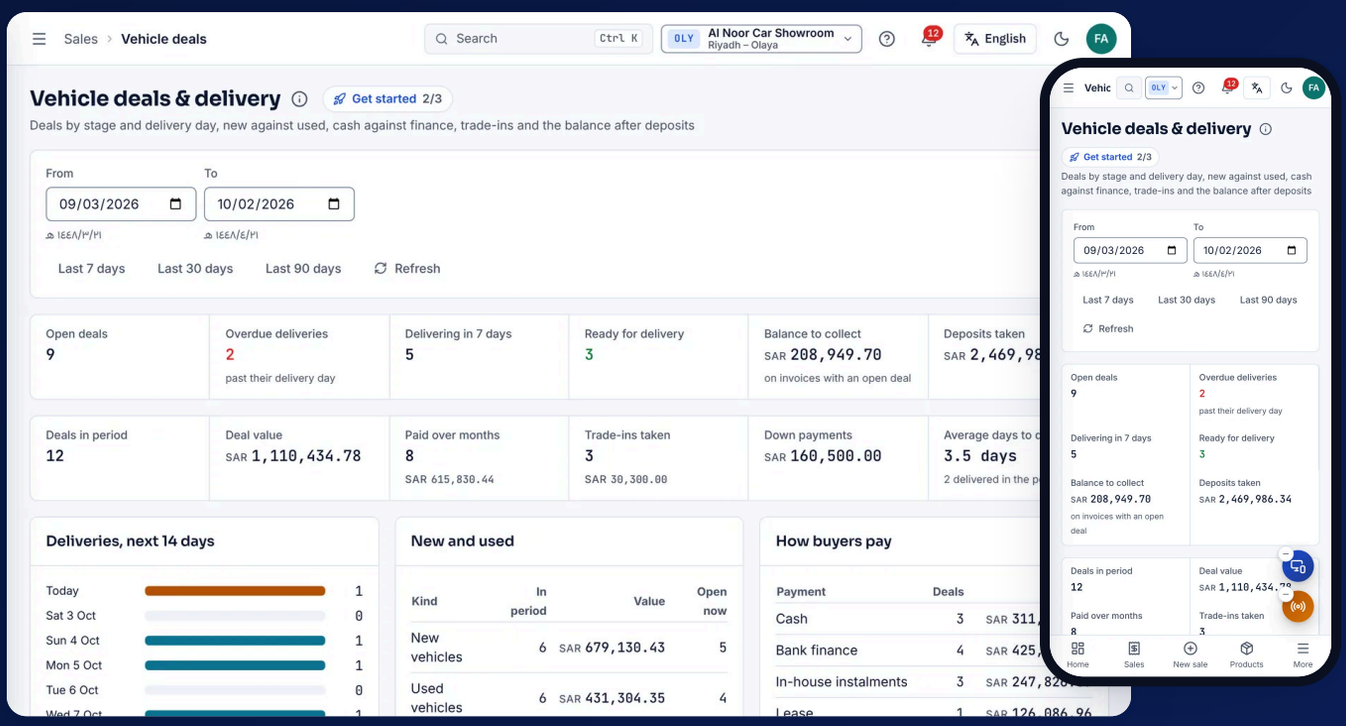

- New car showrooms and franchise dealers
- Used car dealers and car markets
- Certified pre-owned and trade-in centres
- Car importers and exporters

YOUR DASHBOARD

Vehicle showroom dashboard

Vehicles and services by section and make, the models that sell, add-ons per vehicle, buyers and the amounts still due

COMPLIANCE

ZATCA Phase 2 e-invoicing, built in

- **Cleared and reported.** Tax invoices are cleared and simplified invoices reported, with the status on every invoice.
- **QR code and signed XML** on every invoice, printed or sent on WhatsApp and email.
- **Bilingual tax invoices** in Arabic and English with your CR and VAT numbers.
- **Offline till.** Keep selling when the internet drops; invoices go to ZATCA when you are back online.
- **VAT 15% reports** ready for your return, plus credit and debit notes.

Phase 2 comes with the ZATCA e-invoicing add-on; every store gets the Phase 1 QR code.

OUR MISSION

More than a POS: one platform for your whole business

- Your data, ready for any AI
- Bring your data from your old system
- Talk to your business data
- Sell online — Coming soon
- See your business at a glance
- Work from anywhere, even offline
- Stay compliant at the till
- Every branch on one platform
- Run everything in one place

Window tint, heat-rejection film	**SAR 1,200.00**	Finance processing fee	**SAR 1,500.00**

Questions owners ask

Can I sell a car on bank finance with a trade-in?
Yes. Choose bank finance, type the down payment, the months and the trade-in value; the deal shows the amount to finance and the monthly instalment, and the Deals board follows it to delivery.

Is the VIN on the invoice?
Yes. The VIN is printed on the invoice line, and the serial numbers add-on finds the car, its buyer and its invoice from the VIN.

PRICES

Prices on request

Tell us your branches, POS terminals and the add-ons you need, and we send your price per store, with and without 15% VAT.

- Unlimited users and devices
- 2 POS terminals included
- 15-day free trial
- Add only the modules you need
