AT THE COUNTER

Made for the way you sell

Sell an 8-camera kit, a 4 TB surveillance drive and a Wi-Fi 6 router on one invoice, then add the camera installation with the client and the villa printed on the line. The recorder and the laptop carry their serial numbers and warranty, the job moves from scheduled to on site, installed and handed over on the Jobs board, a laptop in for an SSD upgrade is followed until it is ready, CCTV and IT support AMCs renew every year from Recurring contracts, and the CCTV & IT dashboard shows what hardware, installation, AMC and repairs each earned.

Cameras, kits and recorders

IP and analogue cameras, PTZ and ANPR, 4- and 8-camera kits, NVRs, DVRs and surveillance drives, with resolution, channels and connectivity on every product.

Smart home and access control

Hubs, smart switches, plugs and bulbs, smart locks, video doorbells, curtain motors, face and card access, intercoms and alarm kits, scanned or tapped.

PCs and laptops with serial and warranty

Laptops, desktops, monitors, printers and UPS: each one takes its serial number or service tag and its warranty on the invoice line, and the serial numbers add-on tracks it from stock to the customer.

Installation with client and site

Site visits, camera installation per camera, recorder set-up, data points, door access and Wi-Fi set-up ask for the client, the site and the date, and print them on the invoice.

Repairs and AMC on the Jobs board

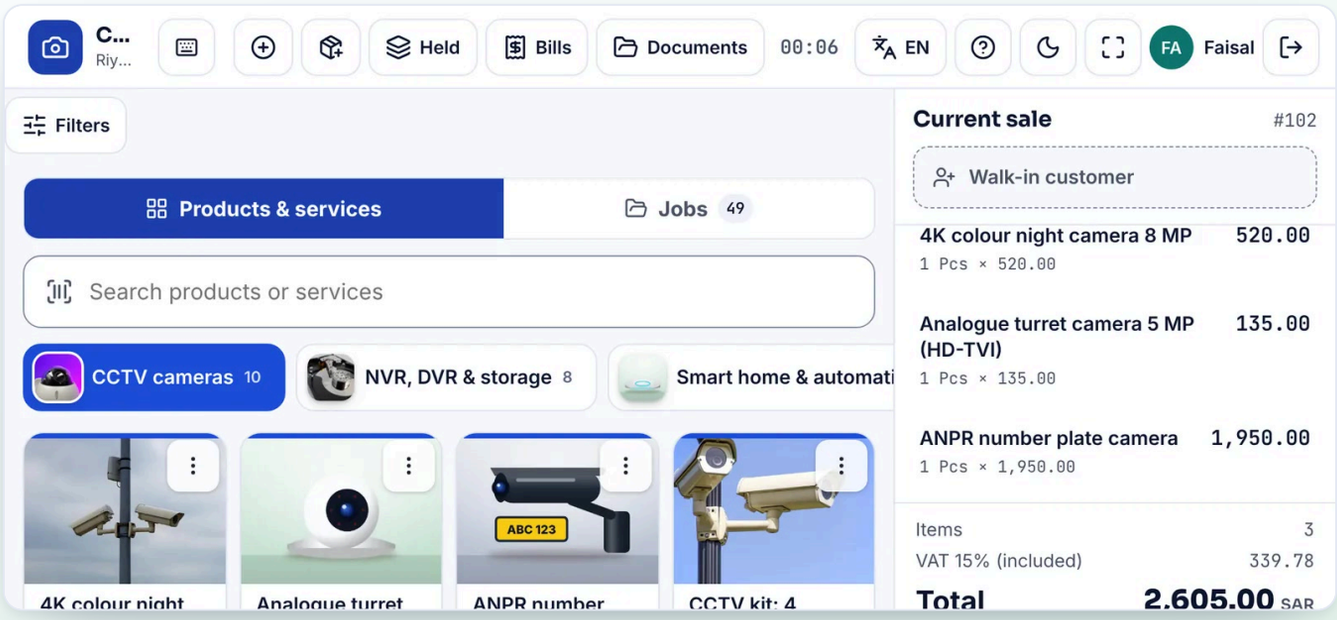

A laptop in for repair is booked with its owner, serial number and ready date; installations, AMC contracts and repairs move from scheduled to handed over.

A CCTV & IT dashboard

Sales and margin by tab and brand, hardware against installation, AMC and repairs, the clients who buy most and what they still owe.

Ideal for

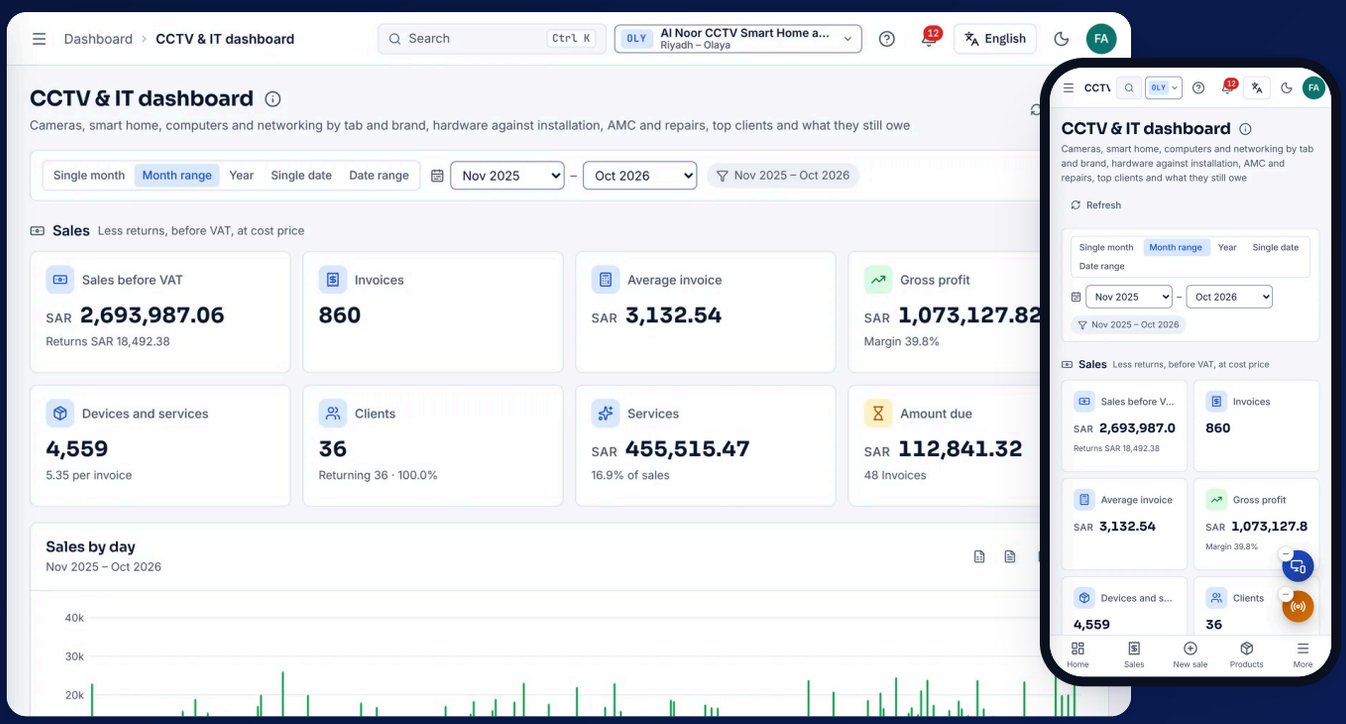

- CCTV and security system installers
- Smart home and automation companies
- Computer and laptop shops with a repair desk
- Networking and IT support providers

YOUR DASHBOARD

COMPLIANCE

ZATCA Phase 2 e-invoicing, built in

- **Cleared and reported.** Tax invoices are cleared and simplified invoices reported, with the status on every invoice.
- **QR code and signed XML** on every invoice, printed or sent on WhatsApp and email.
- **Bilingual tax invoices** in Arabic and English with your CR and VAT numbers.
- **Offline till.** Keep selling when the internet drops; invoices go to ZATCA when you are back online.
- **VAT 15% reports** ready for your return, plus credit and debit notes.

Phase 2 comes with the ZATCA e-invoicing add-on; every store gets the Phase 1 QR code.

Questions owners ask

Can I record the serial number and warranty of each laptop?
Yes. A recorder or a computer asks for its serial number and warranty at the till and prints them on the invoice; with the IMEI & serial numbers add-on each unit shows as in stock, sold or returned.

How do I follow installations and repairs?
Each installation, AMC contract and repair joins the Jobs board after payment and moves from scheduled or received to on site or in repair, installed or ready, and handed over.
