AT THE COUNTER

Made for the way you sell

Bill an examination, a panoramic X-ray, a two-surface filling on tooth 36 or a zirconia crown at the reception desk with the patient, the dentist and the tooth number on the line. Treatments priced per tooth count the teeth, braces and aligner treatments follow on the Treatment plans board until they are finished, and your materials, lab work and every dentist's licence stay in the same system. With the Dental chart add-on, each patient's file shows a chart of the teeth with what was found and what was done on each one.

Examinations and X-rays

Check-ups, emergency visits, periapical and panoramic X-rays and 3D scans, each billed to the patient by name with the dentist.

Fillings, root canals and extractions

Priced per tooth with the FDI tooth number on the line: two fillings are a quantity of two, each on its own tooth.

Implants, crowns and dentures

Implants, porcelain and zirconia crowns, bridges and dentures, with the fitting date on the invoice and the lab that made them among your vendors.

Braces and aligners

Sell the full treatment with the date the braces are fitted and follow it on the Treatment plans board: in treatment, retention, finished.

Dental chart add-on

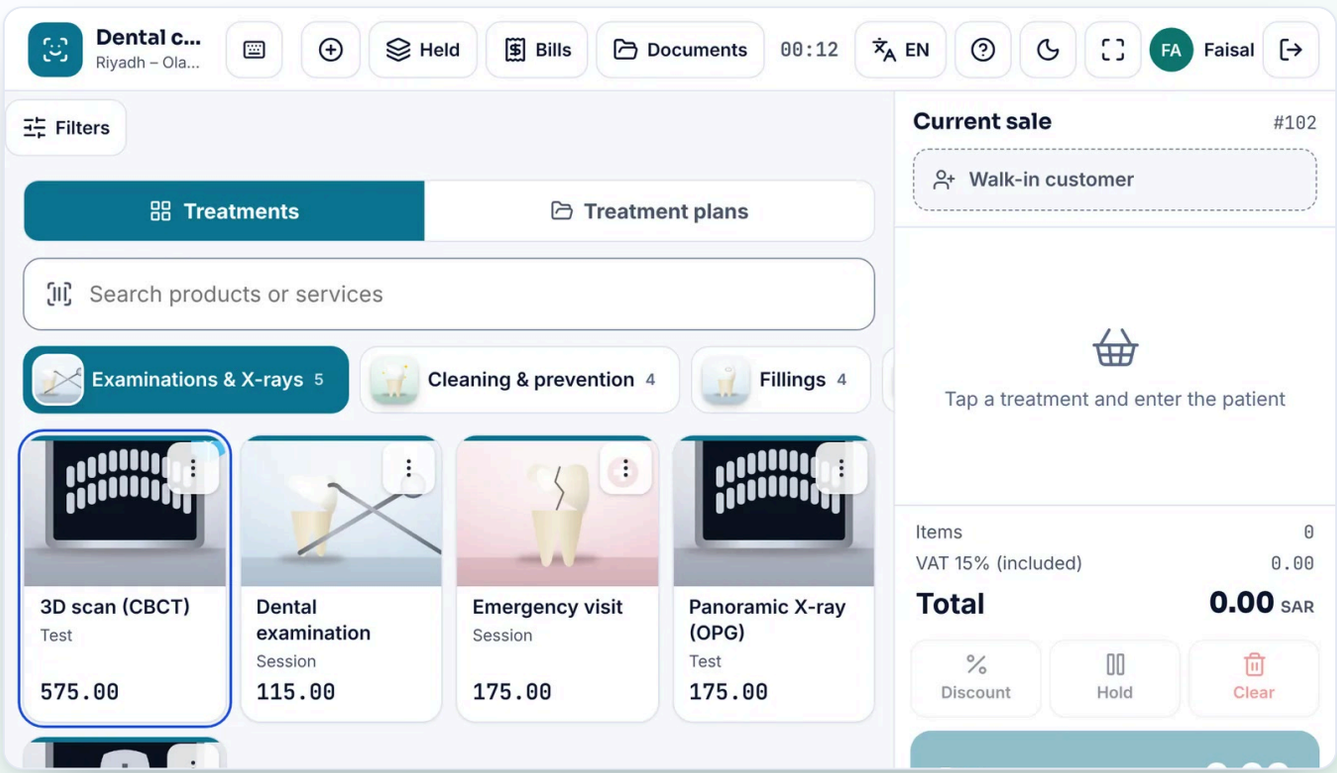

A chart of the 32 adult and 20 child teeth for each patient, with the caries, fillings, crowns and missing teeth found and the treatments planned and done, open only to clinical staff.

Whitening and veneers

In-clinic and home whitening, porcelain veneers and composite bonding, billed on the same screen.

Ideal for

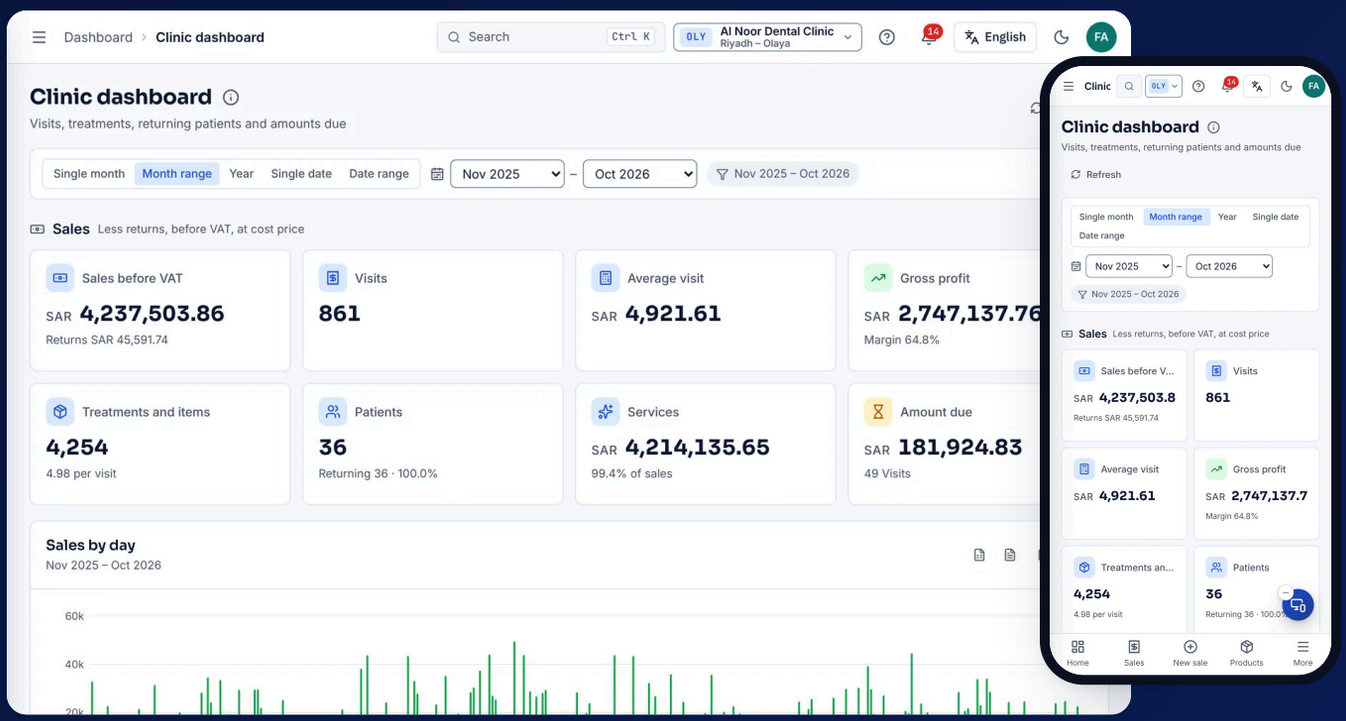

- Dental clinics and centres
- Orthodontic clinics
- Implant and cosmetic dentistry
- Paediatric dentists

COMPLIANCE

ZATCA Phase 2 e-invoicing, built in

- **Cleared and reported.** Tax invoices are cleared and simplified invoices reported, with the status on every invoice.
- **QR code and signed XML** on every invoice, printed or sent on WhatsApp and email.
- **Bilingual tax invoices** in Arabic and English with your CR and VAT numbers.
- **Offline till.** Keep selling when the internet drops; invoices go to ZATCA when you are back online.
- **VAT 15% reports** ready for your return, plus credit and debit notes.

Phase 2 comes with the ZATCA e-invoicing add-on; every store gets the Phase 1 QR code.

OUR MISSION

More than a POS: one platform for your whole business

- Your data, ready for any AI
- Bring your data from your old system
- Talk to your business data
- Sell online — Coming soon
- See your business at a glance
- Work from anywhere, even offline
- Stay compliant at the till
- Every branch on one platform
- Run everything in one place

Sample items from the demo store

Dental examination	**SAR 115.00**	Scaling & polishing	**SAR 290.00**
Composite filling, one surface	**SAR 290.00**	Root canal, molar	**SAR 1,610.00**
Zirconia crown	**SAR 2,300.00**	Clear aligners, full treatment	**SAR 14,950.00**

Questions owners ask

Can I put the tooth number on the invoice?
Yes. Each treatment line takes the FDI tooth number (11 to 48 for adult teeth, 51 to 85 for a child's) with the patient and the dentist.

Can I follow a braces treatment that lasts two years?
Yes. Sell it with the date the braces are fitted; it opens on the Treatment plans board and moves on to retention and finished, and each adjustment visit is billed as it comes.

PRICES

Prices on request

Tell us your branches, POS terminals and the add-ons you need, and we send your price per store, with and without 15% VAT.

- Unlimited users and devices
- 2 POS terminals included
- 15-day free trial
- Add only the modules you need
