AT THE COUNTER

# Made for the way you sell

Type 42 m² of SPC for a homeowner at the retail price, then switch to Trade and sell three carpet rolls to a contractor at the wholesale price on account. Cut-to-size orders, custom rugs and fitting per m² go on the Orders board with the site and the promised day.

### By the m², roll or box

Sell carpet and vinyl by the m², full rolls, boxes of SPC or laminate and mats by the piece, with use class, thickness and material on every product.

### Retail and trade prices

One switch on the POS sells at the wholesale price for dealers, contractors and designers; the invoice records which price list was used.

### Cut and bulk orders

Cut-to-size carpet and vinyl, bulk orders for projects and custom rugs take the customer, site and promised day, with a deposit.

### Measuring, fitting and the orders dashboard

Measuring visits, fitting per m² and old floor removal are services; the Showroom orders & fittings add-on lists what is overdue and still to collect.

### Dealers, contractors and designers

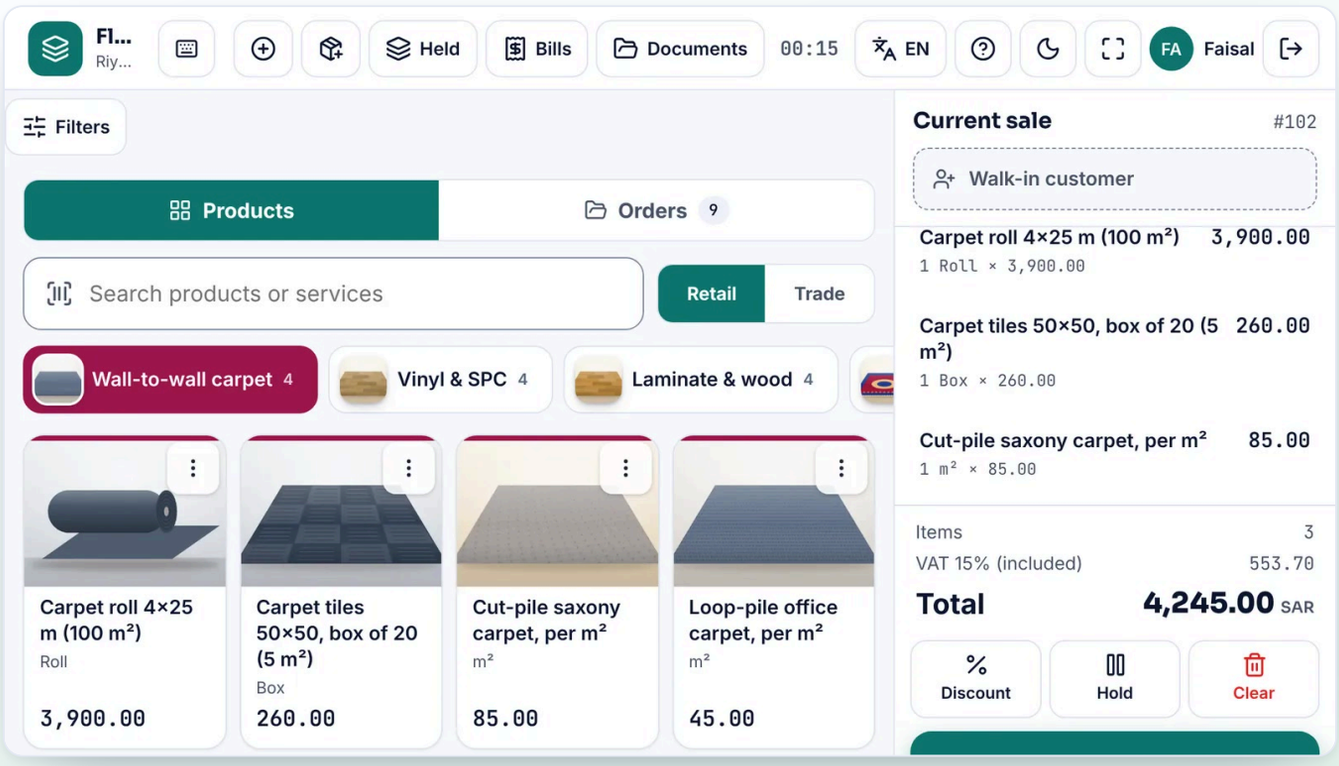

Trade customers buy on account with credit limits, and their statements show every roll and fitting.

### ZATCA invoices for every sale

Retail and trade sales, deposits and fittings print on a ZATCA-ready tax invoice in Arabic and English.

## Ideal for

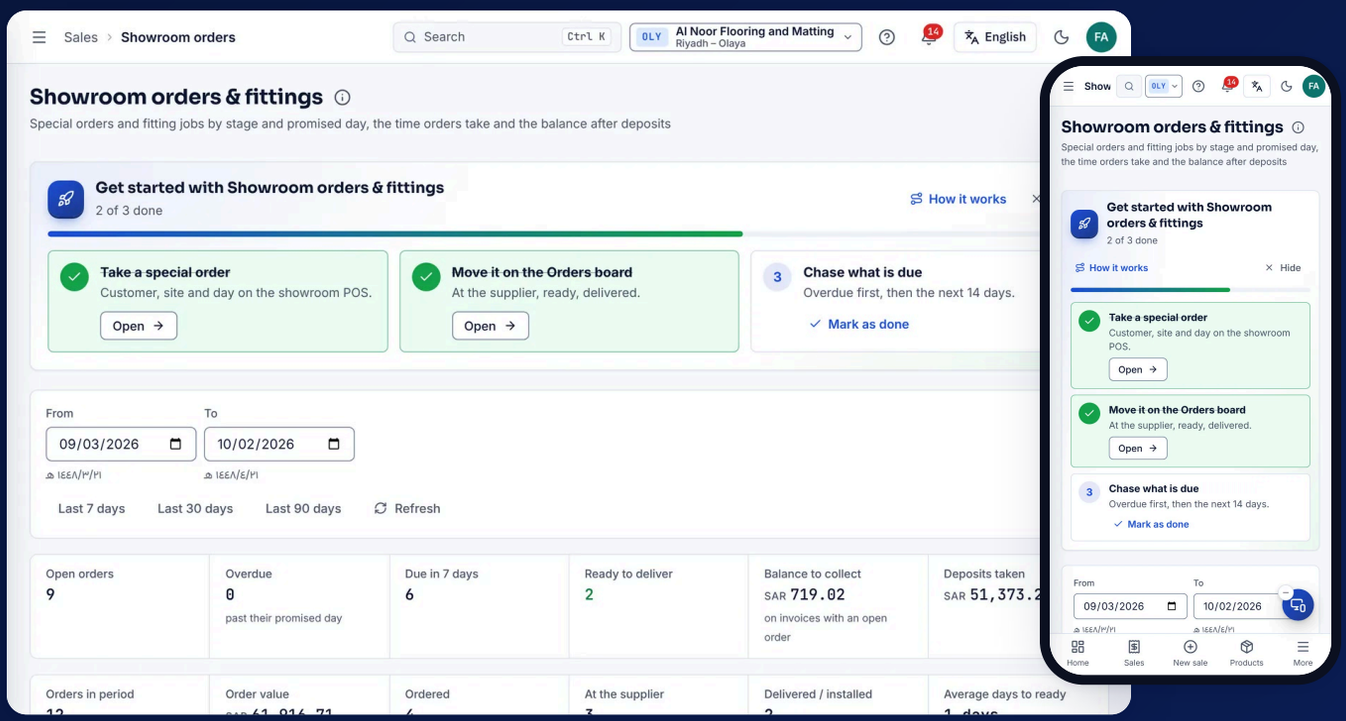

- Carpet and flooring shops
- Flooring wholesalers and distributors
- Mat, rug and artificial grass traders
- Fit-out and contracting suppliers
