AT THE COUNTER

Made for the way you sell

Tap a shoe, pick the colour and the EU size, and the counter shows how many pairs of that one are left. The customer's usual shoe size is remembered, shoe care and repairs go on the same bill with a ready date and a repair ticket, and the Footwear dashboard shows the pairs sold by section and brand, the shoes that sell and the customers who come back.

Colour × EU size stock

Each shoe keeps its colours and sizes; the counter shows the pairs left of each and Variant stock lists the sold-out and low ones first.

Men, women, kids and sports

Men's, women's, kids' and sports shoes, sandals, formal shoes and care products on their own tabs.

The customer's usual size

The size each customer takes is remembered and marked the next time, with VIP tiers and their discount.

Shoe care and repairs

Shine, stretching, heel tips, sole repair and deep cleaning as services with a ready date and a repair ticket.

Gift boxes and gift receipts

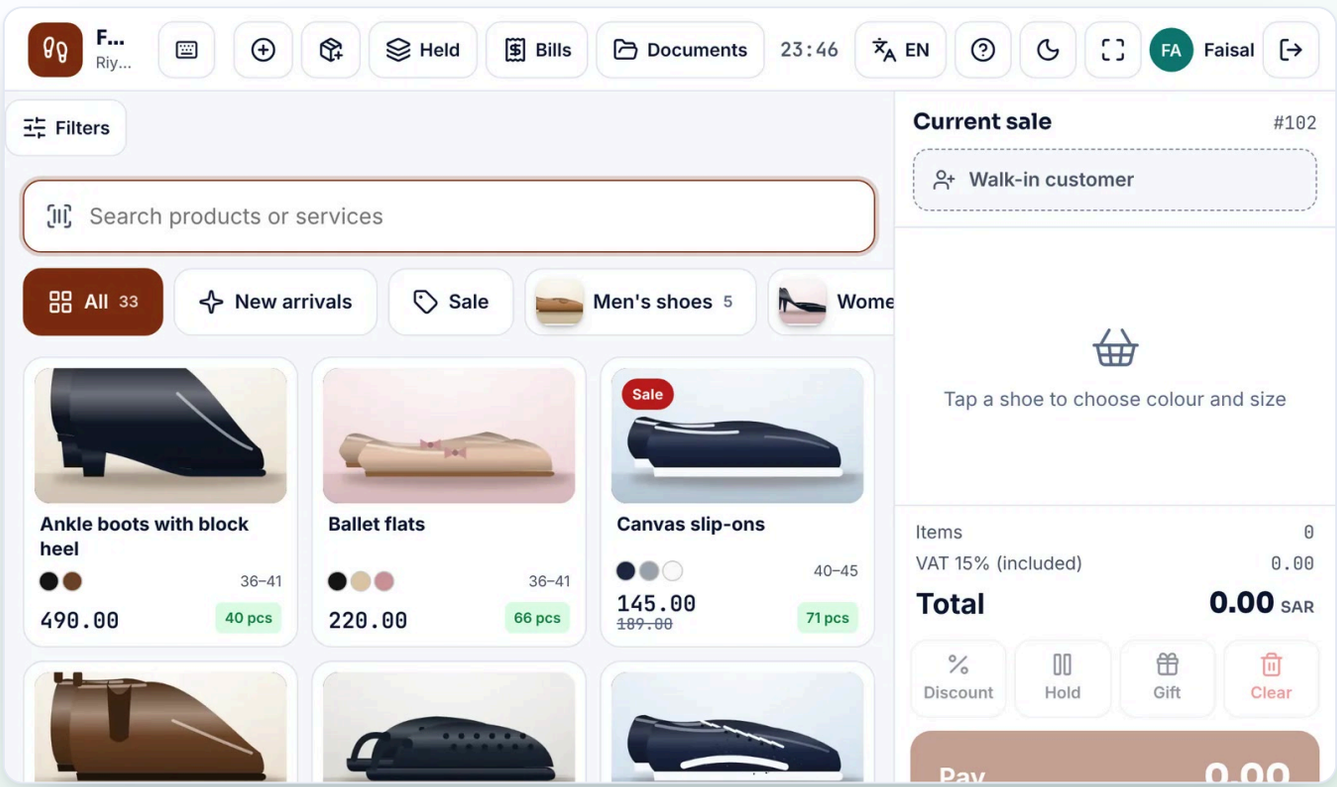

A gift box and bag on the bill, a card message and a gift receipt without prices.

Footwear dashboard

Pairs by section and brand with margin, the top shoes, repairs against shoes and returning customers.

Ideal for

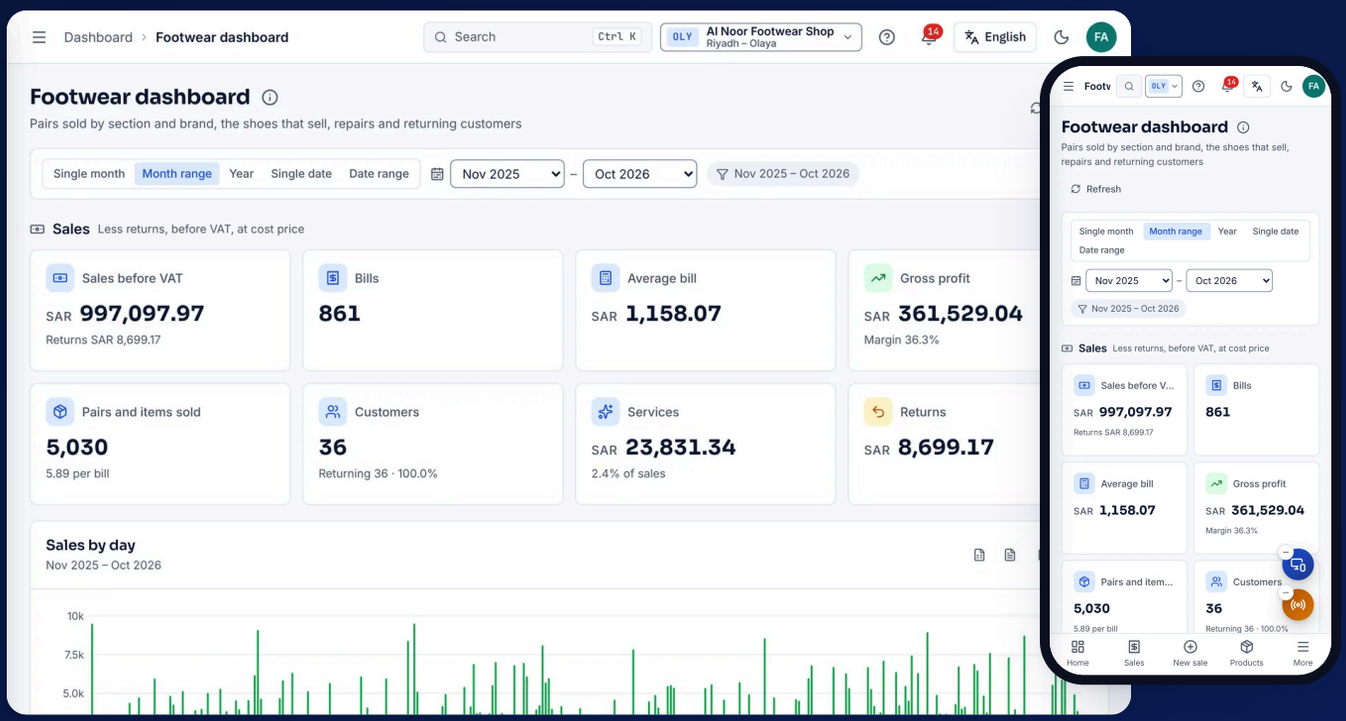

- Family shoe shops
- Sports and running shoe stores
- Ladies' shoe and bag boutiques
- Shoe repair and care counters
