Grocery POS built for Saudi bakalas

Barcode checkout, loose produce by the kilo and a customer credit book for neighbourhood bakalas.

- ZATCA Phase 2
- Arabic and English
- Works offline
- Hijri and Gregorian dates
- StartAI built in

AT THE COUNTER

Made for the way you sell

Ring up a full basket in seconds: scan packaged goods, weigh loose tomatoes by the kilo and put regular customers on their monthly account, all on a ZATCA-compliant receipt.

Scan or search in one box

One search box matches barcodes, product codes and names, so the cashier never switches screens.

Fruit and veg by the kilo

Sell loose produce by weight with quick 0.25, 0.5, 1 and 2 kg presets or any exact weight.

Customer credit book (daftar)

Charge a sale to a regular customer's account and see every unpaid balance in one list.

Top sellers one tap away

A top-sellers tab keeps bread, milk, water and eggs on screen for the fastest checkout.

mada, Apple Pay and STC Pay

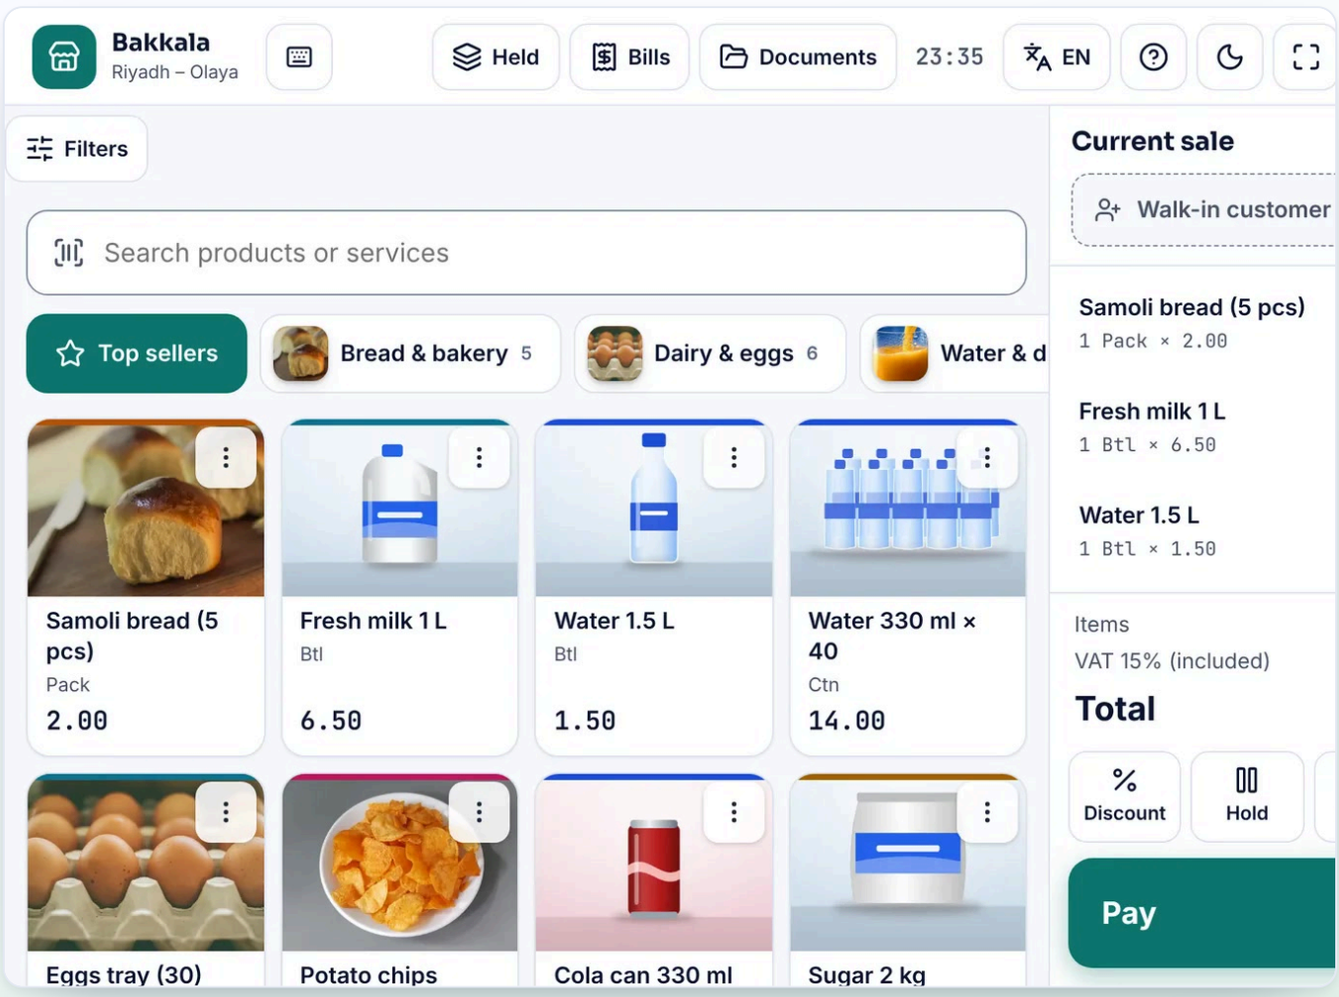

Take cash, mada, Apple Pay, STC Pay or 'on account', and split one bill across methods.

Hold and recall baskets

Park a basket while a customer fetches one more item, serve the next person, then recall it.

Ideal for

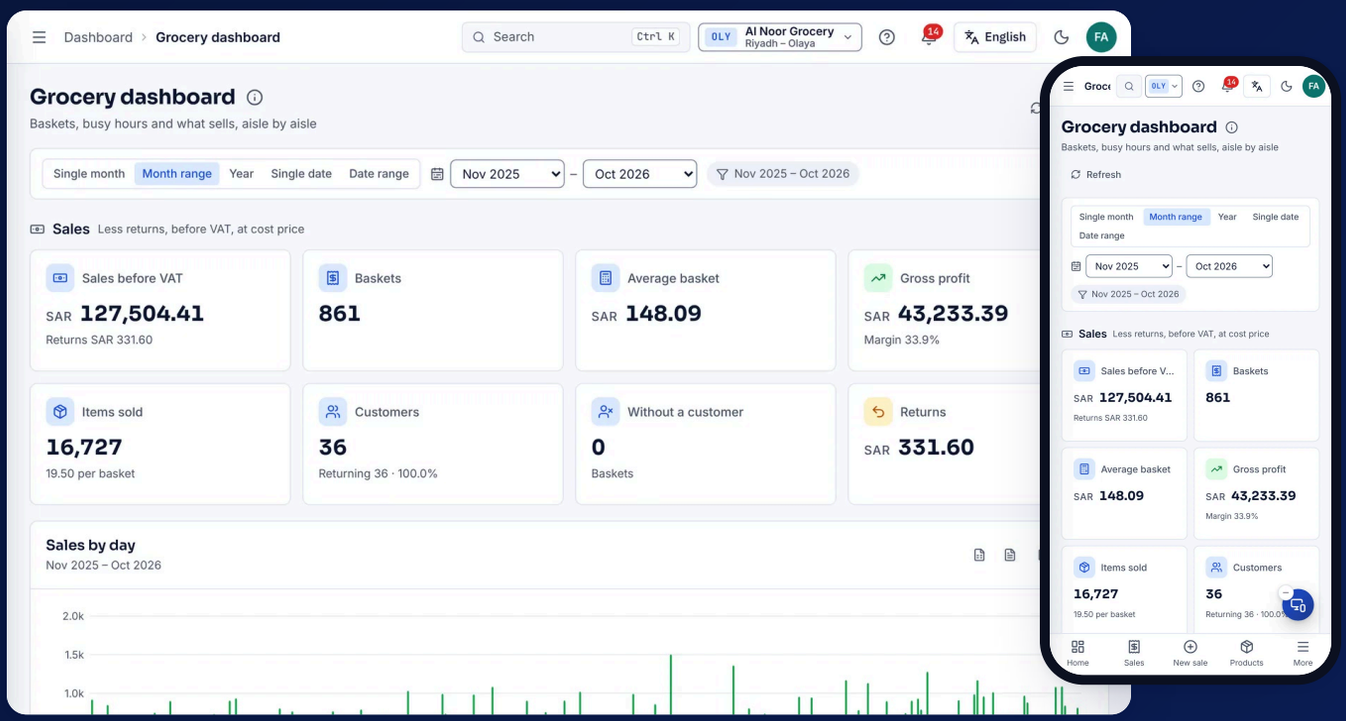

Neighbourhood bakalas · Mini markets · Fruit and vegetable shops · Bakery counters

COMPLIANCE

ZATCA Phase 2 e-invoicing, built in

- **Cleared and reported.** Tax invoices are cleared and simplified invoices reported, with the status on every invoice.
- **QR code and signed XML** on every invoice, printed or sent on WhatsApp and email.
- **Bilingual tax invoices** in Arabic and English with your CR and VAT numbers.
- **Offline till.** Keep selling when the internet drops; invoices go to ZATCA when you are back online.
- **VAT 15% reports** ready for your return, plus credit and debit notes.

Phase 2 comes with the ZATCA e-invoicing add-on; every store gets the Phase 1 QR code.

Questions owners ask

Can I sell vegetables by weight?
Yes. Weighed items ask for the weight in kilograms, with presets for common amounts, and the price is calculated per kilo on the receipt.

Can regular customers pay at the end of the month?
Yes. Choose 'on account' at payment and the sale goes into the customer's credit book. You see each customer's unpaid balance and collect it later.
