AT THE COUNTER

Made for the way you sell

Filter valves, flanges, gaskets and studs by type, size, class and material, quote contract prices, record heat numbers from the MTC and deliver to site with the estimated weight.

Spec filters
Type, size from ½" to 12", class 150 to 800 and material on one screen.

Heat numbers and MTCs
Record the heat or lot number per line and flag an EN 10204 3.1 certificate to attach.

Contract vs list prices
Industrial accounts on 60-day terms and contractors on 30-day terms get contract prices.

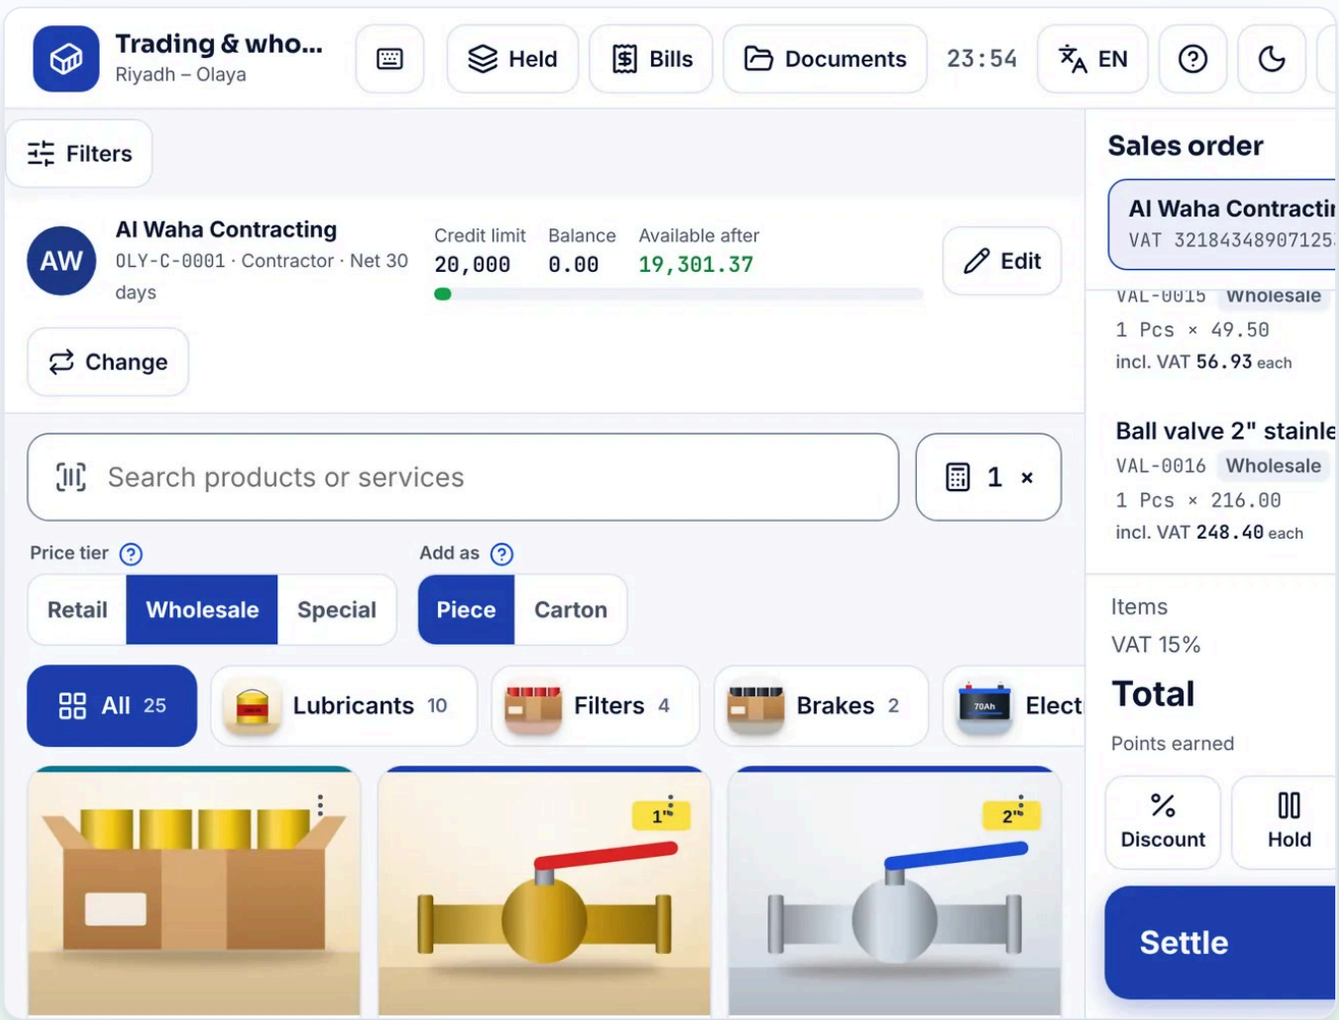

Back-orders and RFQs
Shortfalls become back-order lines and raise a supplier RFQ automatically.

Site delivery
Deliver to a site location or collect at the counter, with estimated gross weight.

PO, project and required-by
Record the customer's PO number, project or job reference and required-by date.

Ideal for

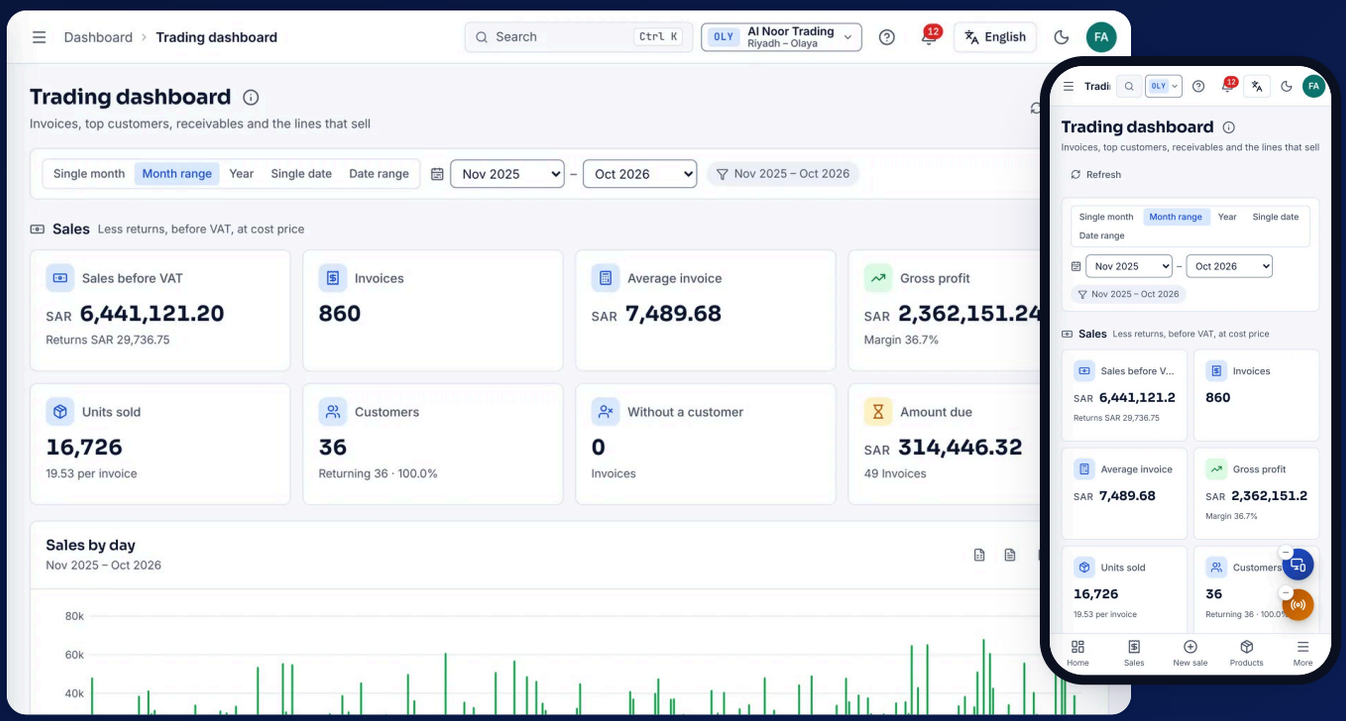

Valve and flange suppliers · Oil and gas stockists · MRO suppliers · Fastener traders

COMPLIANCE

ZATCA Phase 2 e-invoicing, built in

- **Cleared and reported.** Tax invoices are cleared and simplified invoices reported, with the status on every invoice.
- **QR code and signed XML** on every invoice, printed or sent on WhatsApp and email.
- **Bilingual tax invoices** in Arabic and English with your CR and VAT numbers.
- **Offline till.** Keep selling when the internet drops; invoices go to ZATCA when you are back online.
- **VAT 15% reports** ready for your return, plus credit and debit notes.

Phase 2 comes with the ZATCA e-invoicing add-on; every store gets the Phase 1 QR code.

Questions owners ask

Can I record heat numbers and certificates?
Yes. Each line takes a heat or lot number from the mill test certificate and can be flagged for an EN 10204 3.1 MTC to attach.

What happens when stock is short?
The shortfall becomes a back-order line and a supplier RFQ is raised automatically.
