AT THE COUNTER

Made for the way you sell

Book a 20 ft container, a truck load or a courier parcel with the shipper, consignee, route and waybill printed on the tax invoice. International freight is zero-rated, customs clearance and storage are billed on the same account, and every shipment moves from booked to in transit, arrived and delivered on the Shipments board.

Sea, air and road freight

FCL and LCL containers, air freight by the kilo, full and part truck loads and GCC cross-border trucking, at the quoted rate.

Consignee and waybill on the invoice

Every shipment asks for the shipper, consignee, route, AWB or B/L number and weight, and prints them on its line.

Zero-rated international freight

International sea, air and cross-border freight carries 0% VAT while local services keep the standard rate.

Customs clearance

Import and export clearance and certificates of origin, billed with the consignee and bill of lading number.

Warehousing and handling

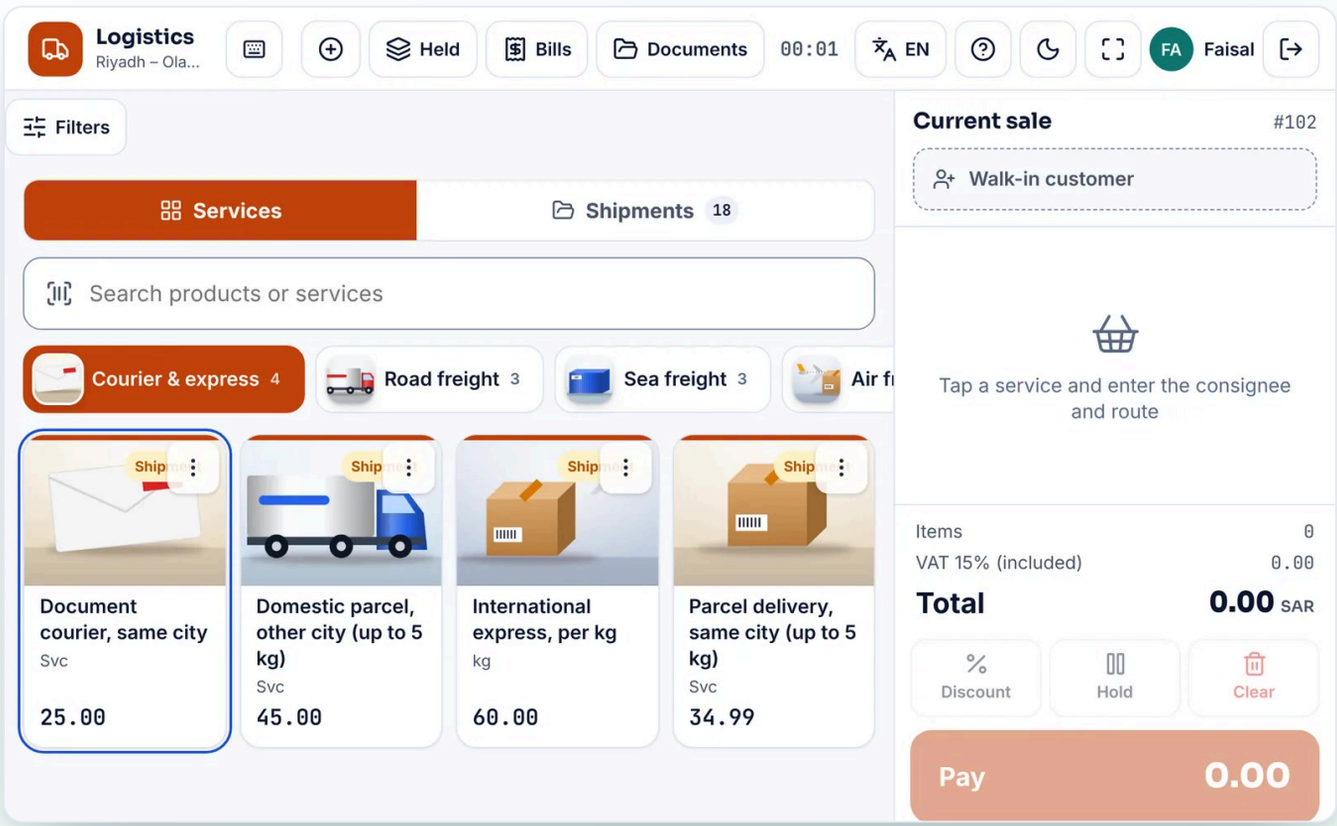

Storage per pallet per month, cold storage and handling in and out, billed to the client company every month.

Shipments board

Each paid shipment moves from booked to in transit, arrived and delivered, or cancelled, with the waybill in view.

Ideal for

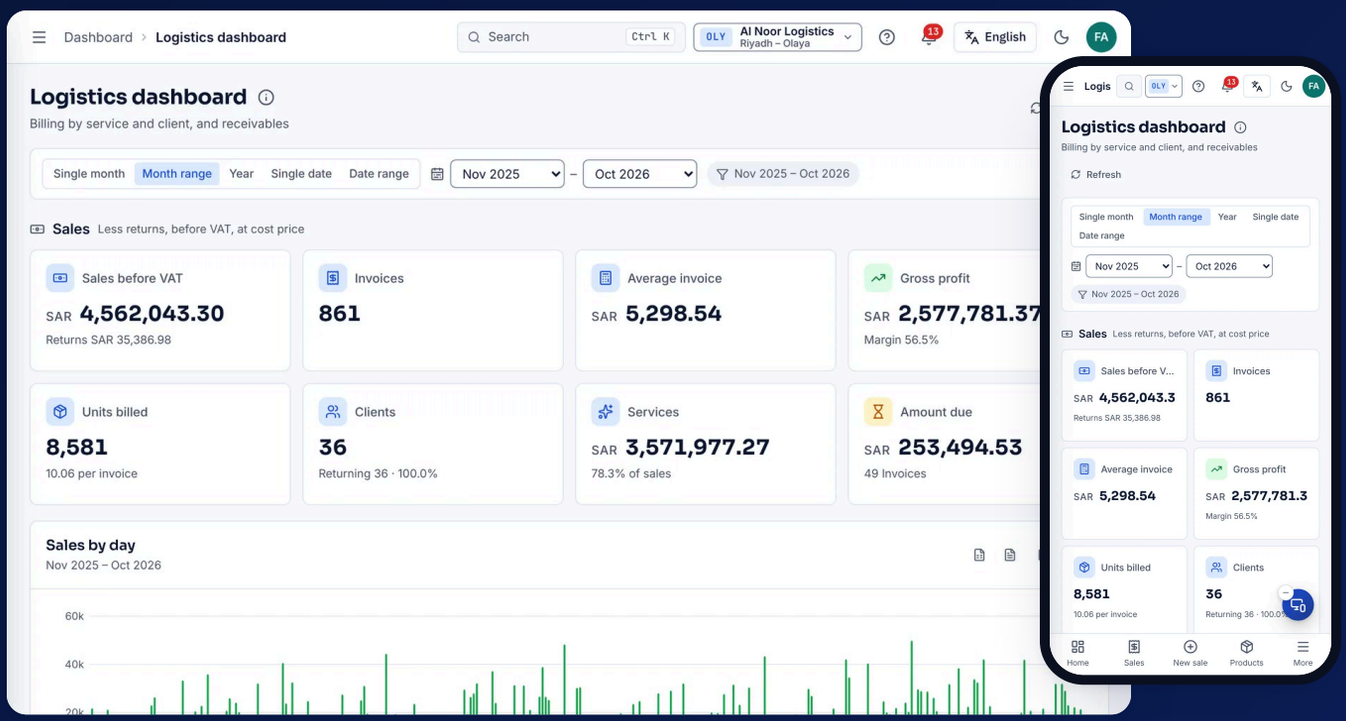

- Freight forwarders
- Trucking and cargo companies
- Courier and delivery companies
- Customs brokers and warehouses

Questions owners ask

Is international freight billed at 0% VAT?
Yes. The international freight services of the starter catalog carry a 0% rate in VAT countries; bill them apart from local services, as one invoice carries one rate.

Yes. Courier, freight, customs and moving jobs open on the Shipments board, where you mark each in transit, arrived or delivered.
