AT THE COUNTER

# Made for the way you sell

Bill a GP or specialist consultation, a blood test, a chest X-ray or a dental filling at the reception desk with the patient's name, the doctor and the date the results are ready on the line. Sell health checks and care plans, follow each one on the Care plans board until it is closed, and keep your consumables, lab supplies and every doctor's licence in the same system. With the Patient records add-on, doctors keep each patient's visits, vital signs and ICD-10 diagnoses, seen only by clinical staff.

### Consultations

GP, specialist and paediatric consultations, follow-up visits, teleconsultations and home visits, each billed to the patient by name with the doctor.

### Laboratory and imaging

Blood counts, sugar and HbA1c, lipid, liver, kidney and thyroid tests, X-ray and ultrasound, with the date the results are ready on the line.

### Dental work

Examination, scaling, fillings, extractions, root canals and whitening, with the next visit on the invoice.

### Health checks and care plans

Executive and basic health checks, pre-employment medicals, diabetes care plans and antenatal packages, followed on the Care plans board.

### Patient records add-on

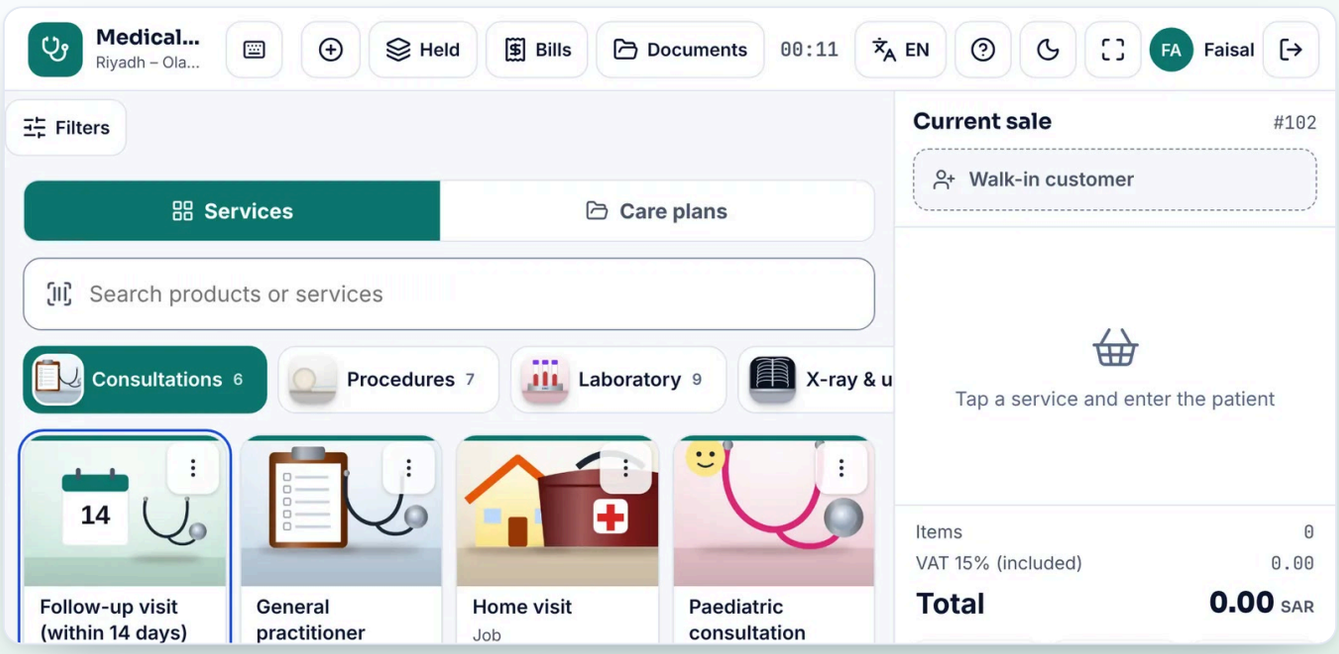

Each patient's allergies, chronic conditions, visits, vital signs and ICD-10 diagnoses, open only to the doctors and nurses you allow, with every look logged.

### No diagnosis on the invoice

Only the patient, doctor and dates are printed; nothing about the patient's condition goes on the invoice.

## Ideal for

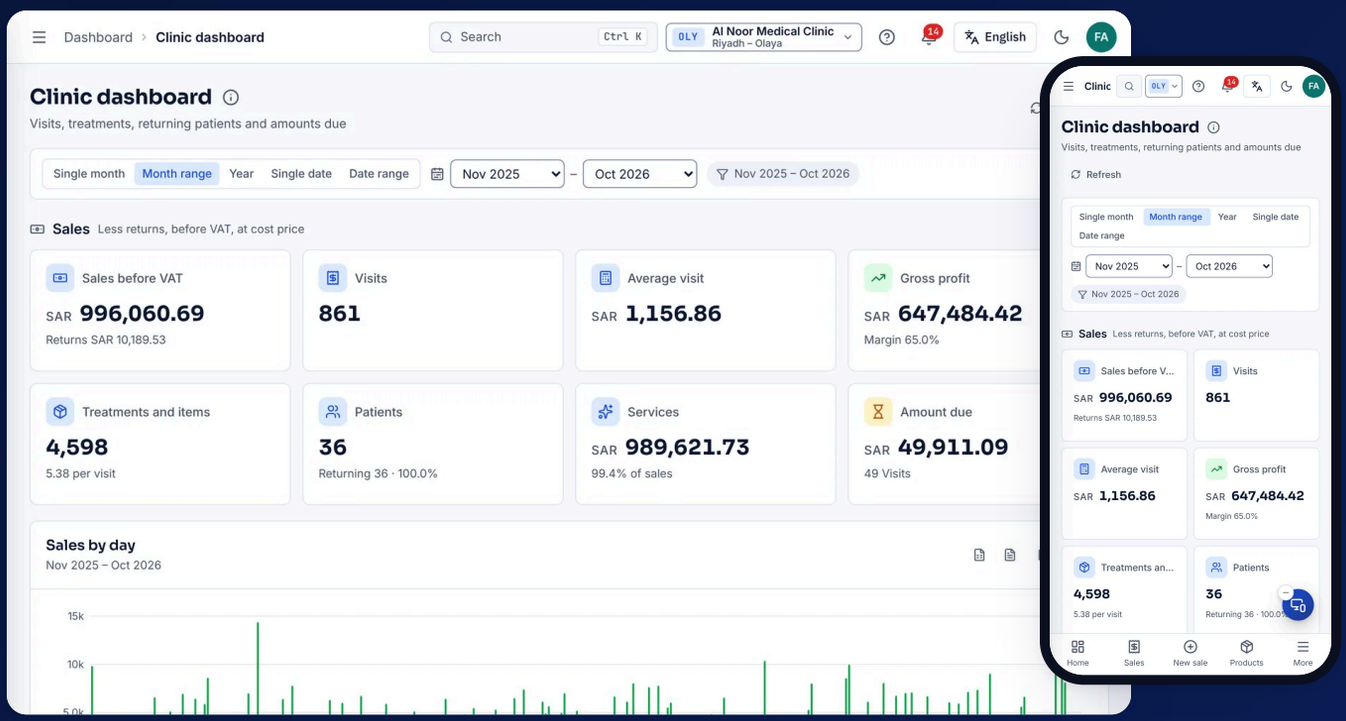

- General practice and family medicine clinics
- Polyclinics and medical centres
- Specialist clinics
- Clinics with their own laboratory and X-ray

YOUR DASHBOARD

# Clinic dashboard

Visits, treatments, returning patients and amounts due

COMPLIANCE

# ZATCA Phase 2 e-invoicing, built in

- **Cleared and reported.** Tax invoices are cleared and simplified invoices reported, with the status on every invoice.
- **QR code and signed XML** on every invoice, printed or sent on WhatsApp and email.
- **Bilingual tax invoices** in Arabic and English with your CR and VAT numbers.
- **Offline till.** Keep selling when the internet drops; invoices go to ZATCA when you are back online.
- **VAT 15% reports** ready for your return, plus credit and debit notes.

Phase 2 comes with the ZATCA e-invoicing add-on; every store gets the Phase 1 QR code.

OUR MISSION

# More than a POS: one platform for your whole business

- Your data, ready for any AI
- Bring your data from your old system
- Talk to your business data
- Sell online — Coming soon
- See your business at a glance
- Work from anywhere, even offline
- Stay compliant at the till
- Every branch on one platform
- Run everything in one place

## Sample items from the demo store

| | | | |
|---|---|---|---|
| General practitioner consultation | **SAR 175.00** | Specialist consultation | **SAR 345.00** |
| HbA1c | **SAR 90.00** | Chest X-ray | **SAR 150.00** |
| Scaling & polishing | **SAR 290.00** | Executive health check | **SAR 1,150.00** |

## Questions owners ask

**Does the invoice show the patient's diagnosis?**
No. The invoice line carries the patient's name, the doctor and the dates only. Diagnoses stay in the Patient records add-on, open only to clinical staff.

**Can I sell a health check and follow it until the results are given?**
Yes. Sell it with the start date; it opens on the Care plans board and moves on to results given and closed.

PRICES

## Prices on request

Tell us your branches, POS terminals and the add-ons you need, and we send your price per store, with and without 15% VAT.

- Unlimited users and devices
- 2 POS terminals included
- 15-day free trial
- Add only the modules you need

## See it working
