AT THE COUNTER

Made for the way you sell

Sell a tola of dehn al oud, a 100 ml Eau de Parfum and a box of bakhoor on one receipt. Every product carries its concentration, volume and scent family, so staff find the right bottle fast and stock is counted per size, and custom blends and refills ring up as services.

Oud and oils by the tola

Dehn al oud, Taifi rose and musk attars sold by the 3 ml, 6 ml or 12 ml tola, with the brand and size on the invoice.

Scan or tap

Scan the bottle's barcode or tap it under oud, attar, perfumes, bakhoor, musk, gift sets or burners.

Concentration, volume and scent family

Perfume oil, Eau de Parfum or Eau de Toilette, 3 ml to 100 ml, oud, floral, musky, amber or fresh: on every product and as POS filters.

Gift sets and occasions

Eid boxes, wedding chests and perfume, oil and bakhoor sets, with engraving and gift wrap added to the same bill.

Custom blends and refills

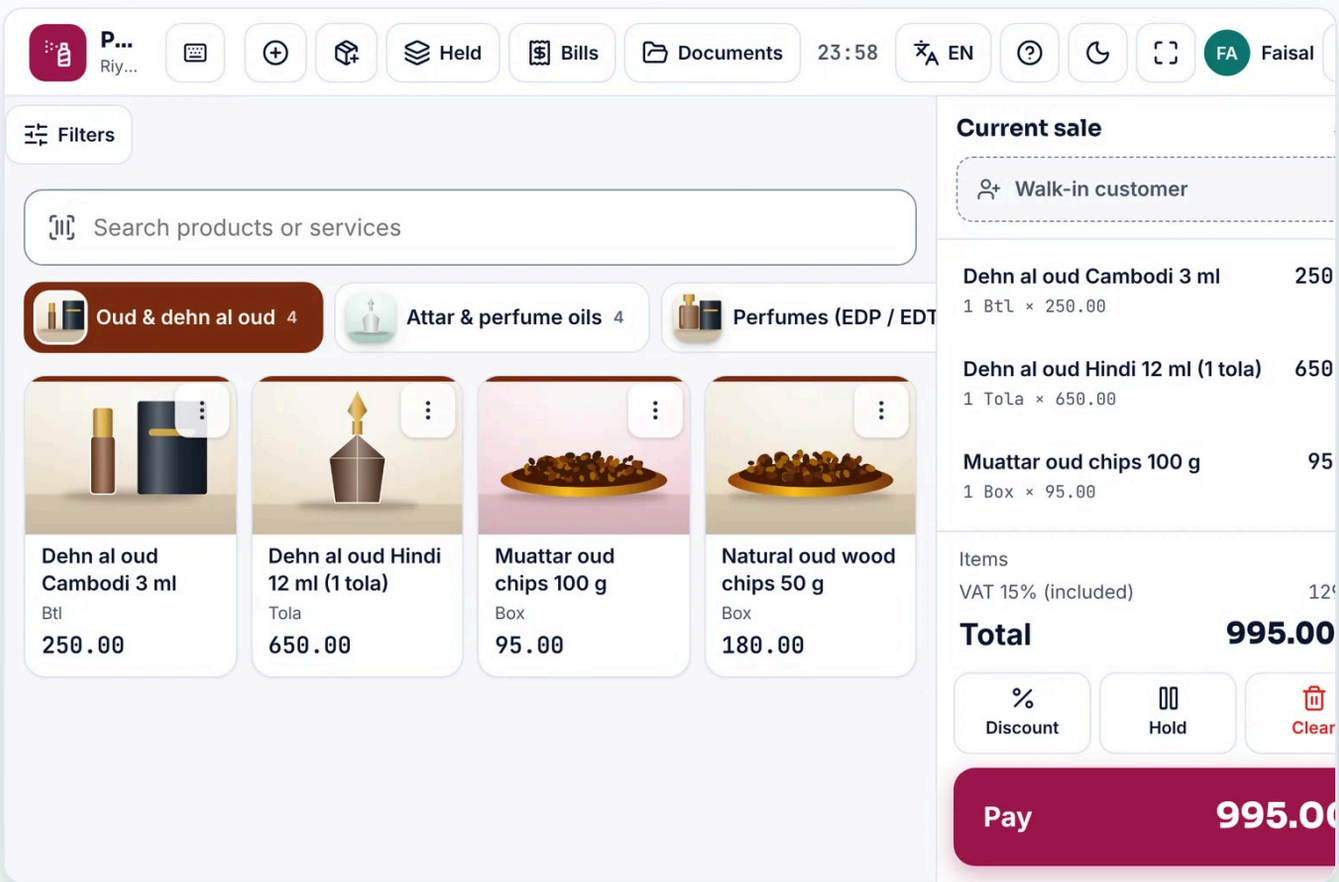

Blend a customer's own perfume by the 10 ml or refill their bottle, sold as a service next to the products.

Stock per bottle size

Each size is its own product with its own stock, purchase price and reorder level, so the oud you sell most never runs out.

Ideal for

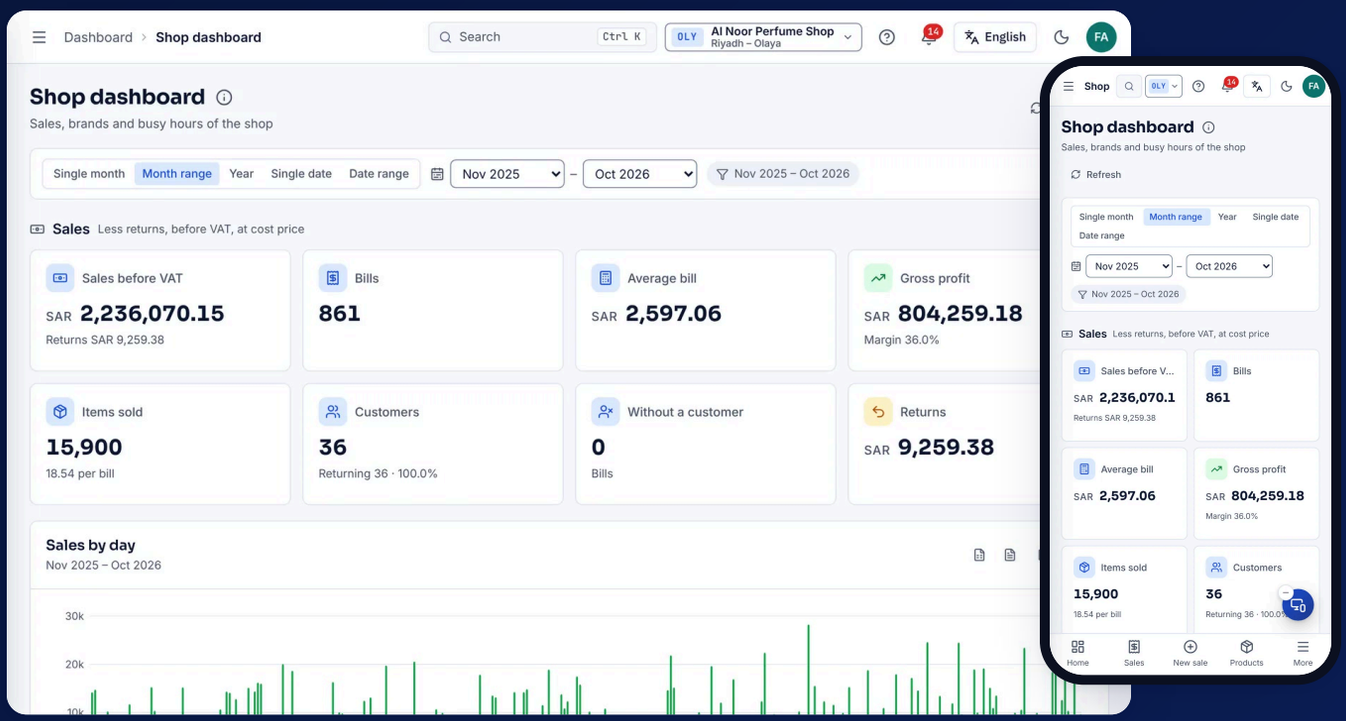

Perfume and oud shops · Bakhoor and incense stores · Mall perfume kiosks · Attar and blending counters
