PETROL STATION POS & FUEL STATION SOFTWARE

POS and forecourt software for petrol stations

Fuel sold by the litre or by the amount at each pump, with the car's plate, meter sheets per shift and daily tank dips.

- ZATCA Phase 2
- Arabic and English
- Works offline
- Hijri and Gregorian dates
- StartAI built in

AT THE COUNTER

Made for the way you sell

The customer asks for 50 of 91 at pump 3: tap the fuel, pick the pump and type 50, and the litres are worked out to three decimals. Engine oil, a car wash, a gas refill and a coffee from the shop go on the same bill, paid in cash, by card or on a company's fleet account. At the end of each shift the meter sheet sets the nozzle readings against the cash counted, and the morning tank dips show any fuel lost against the book stock.

Litres or amount at each pump

Type the amount the customer asks for and the litres are worked out, or type the litres; the pump and the plate go on the line.

Fleet accounts

Companies fill up on credit: each bill goes on their account with the plate, and a statement shows what they owe.

Meter sheet per shift

Each nozzle's opening and closing reading gives the litres and the amount; set against the cash, card and credit, the sheet shows the cash short or over.

Daily tank dips

Dip each tank in the morning: the loss or gain against the book stock, the water at the bottom and the tanks below their reorder level.

Oils, car care and services

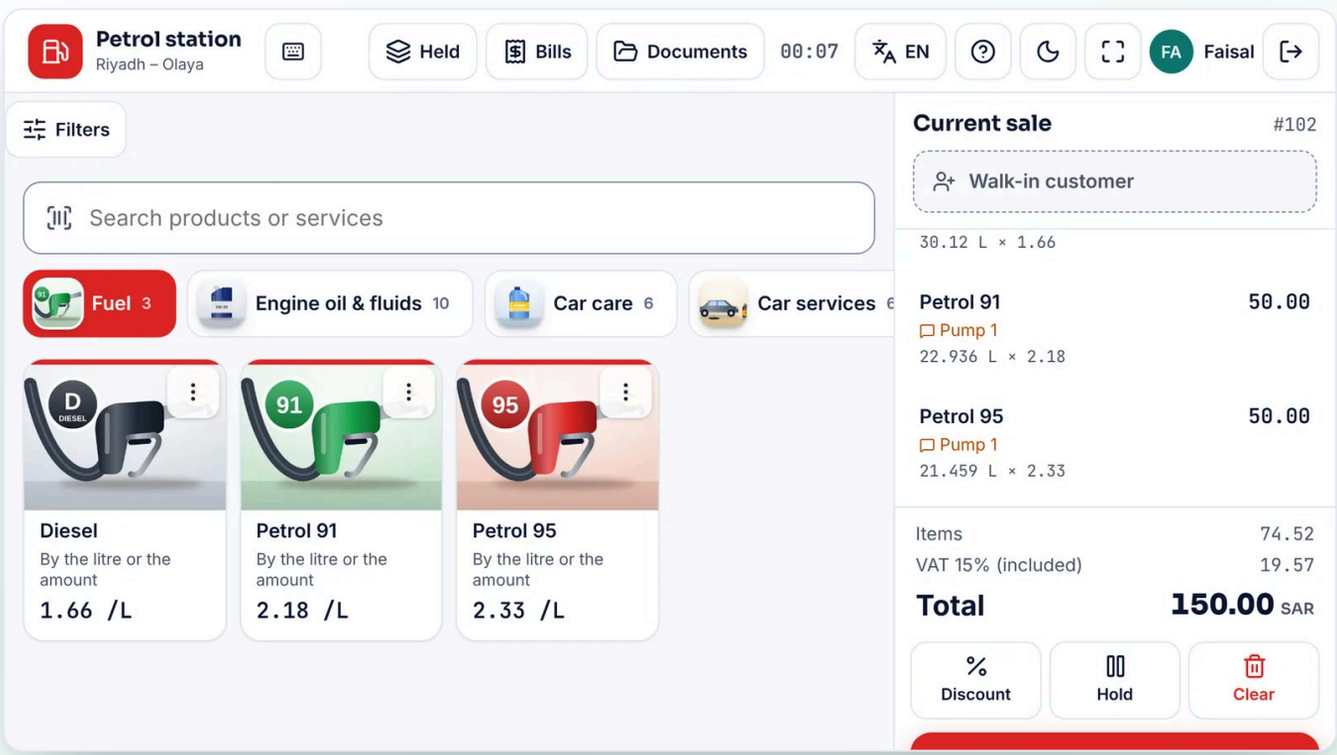

Engine oil, coolant and AdBlue, car care, a wash, tyre air and oil change on the same bill as the fuel.

Margin per litre

The fuel dashboard shows the litres, the revenue and the profit of each fuel, the margin per litre, the shop's share and the days of fuel left.

Ideal for

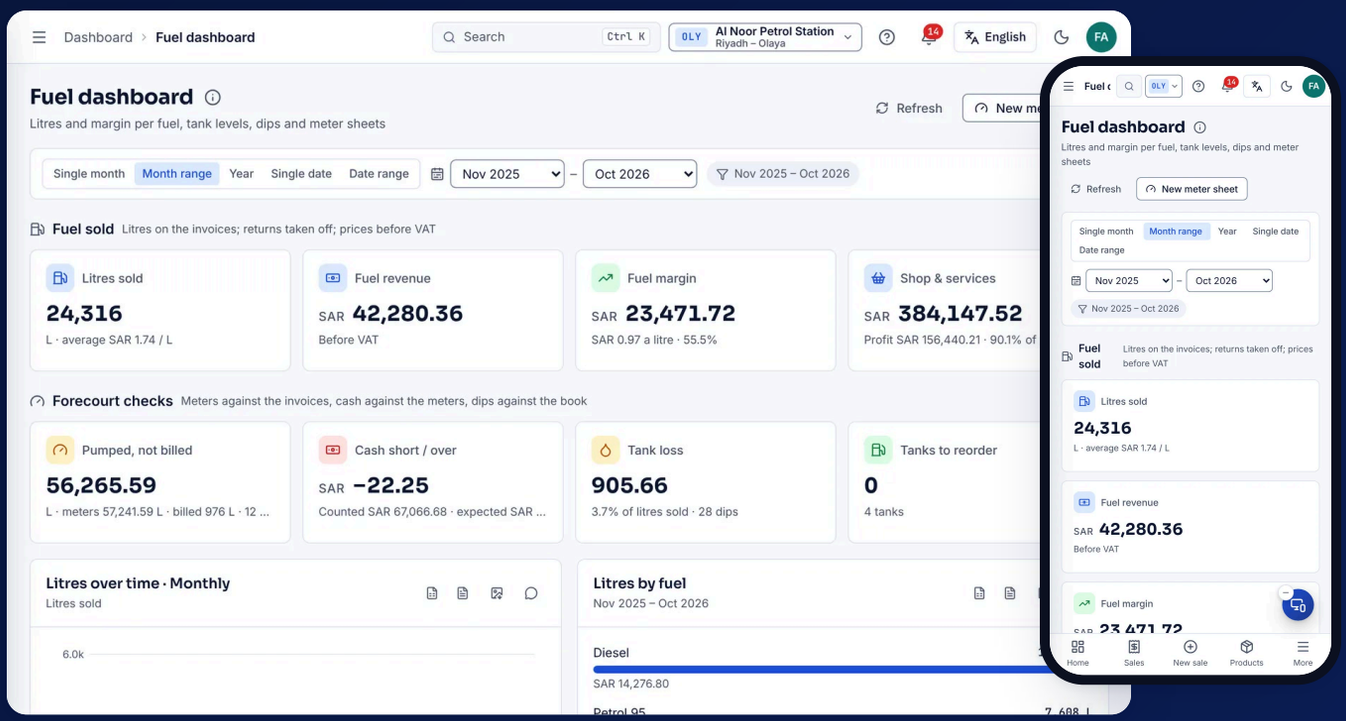

- Petrol pumps and fuel stations
- Highway service stations with a shop
- Diesel stations serving trucks and fleets
- Stations with a car wash and oil change bay

YOUR DASHBOARD

Your business at a glance

Sales, profit and what sells, in your own words, on the computer and the phone.

COMPLIANCE

ZATCA Phase 2 e-invoicing, built in

- **Cleared and reported.** Tax invoices are cleared and simplified invoices reported, with the status on every invoice.
- **QR code and signed XML** on every invoice, printed or sent on WhatsApp and email.
- **Bilingual tax invoices** in Arabic and English with your CR and VAT numbers.
- **Offline till.** Keep selling when the internet drops; invoices go to ZATCA when you are back online.
- **VAT 15% reports** ready for your return, plus credit and debit notes.

Phase 2 comes with the ZATCA e-invoicing add-on; every store gets the Phase 1 QR code.

OUR MISSION

More than a POS: one platform for your whole business

- Your data, ready for any AI
- Bring your data from your old system
- Talk to your business data
- Sell online — Coming soon
- See your business at a glance
- Work from anywhere, even offline
- Stay compliant at the till
- Every branch on one platform
- Run everything in one place

Sample items from the demo store

Petrol 91, per litre	**SAR 2.18**	Petrol 95, per litre	**SAR 2.33**
Diesel, per litre	**SAR 1.66**	Engine oil 5W-30, 4 L	**SAR 135.00**
Exterior car wash	**SAR 20.00**	Gas cylinder refill	**SAR 21.00**

Questions owners ask

Can the cashier type the amount instead of the litres?
Yes. Pick By amount and type what the customer asked for; the litres are worked out to three decimals and the bill shows both.

How do I check the cash against the pumps?
With the Forecourt add-on, close a meter sheet at the end of each shift: the nozzle readings give the amount and the sheet shows the cash short or over after card and credit.

PRICES

Prices on request

Tell us your branches, POS terminals and the add-ons you need, and we send your price per store, with and without 15% VAT.

- Unlimited users and devices
- 2 POS terminals included
- 15-day free trial
- Add only the modules you need
