SUPERMARKET POS

Supermarket POS for fast, busy lanes

Scan-first lanes with PLU codes, automatic promotions, loyalty points and supervisor approvals.

- ZATCA Phase 2
- Arabic and English
- Works offline
- Hijri and Gregorian dates
- StartAI built in

AT THE COUNTER

Made for the way you sell

Keep queues moving with a scan-first lane that never loses focus, promotions that apply themselves and loyalty points by mobile number, with every bill a ZATCA e-invoice.

Scan-first cashier lane
The scanner input stays focused with a confirmation beep. Type 3x before a scan to multiply quantity.

PLU codes and weighed items
Look up loose produce and meat by PLU code and sell it by the kilo.

Promotions that apply themselves
Buy 2 get 1, 2 for SAR 10 and department discounts apply automatically, with 'You saved' on the receipt.

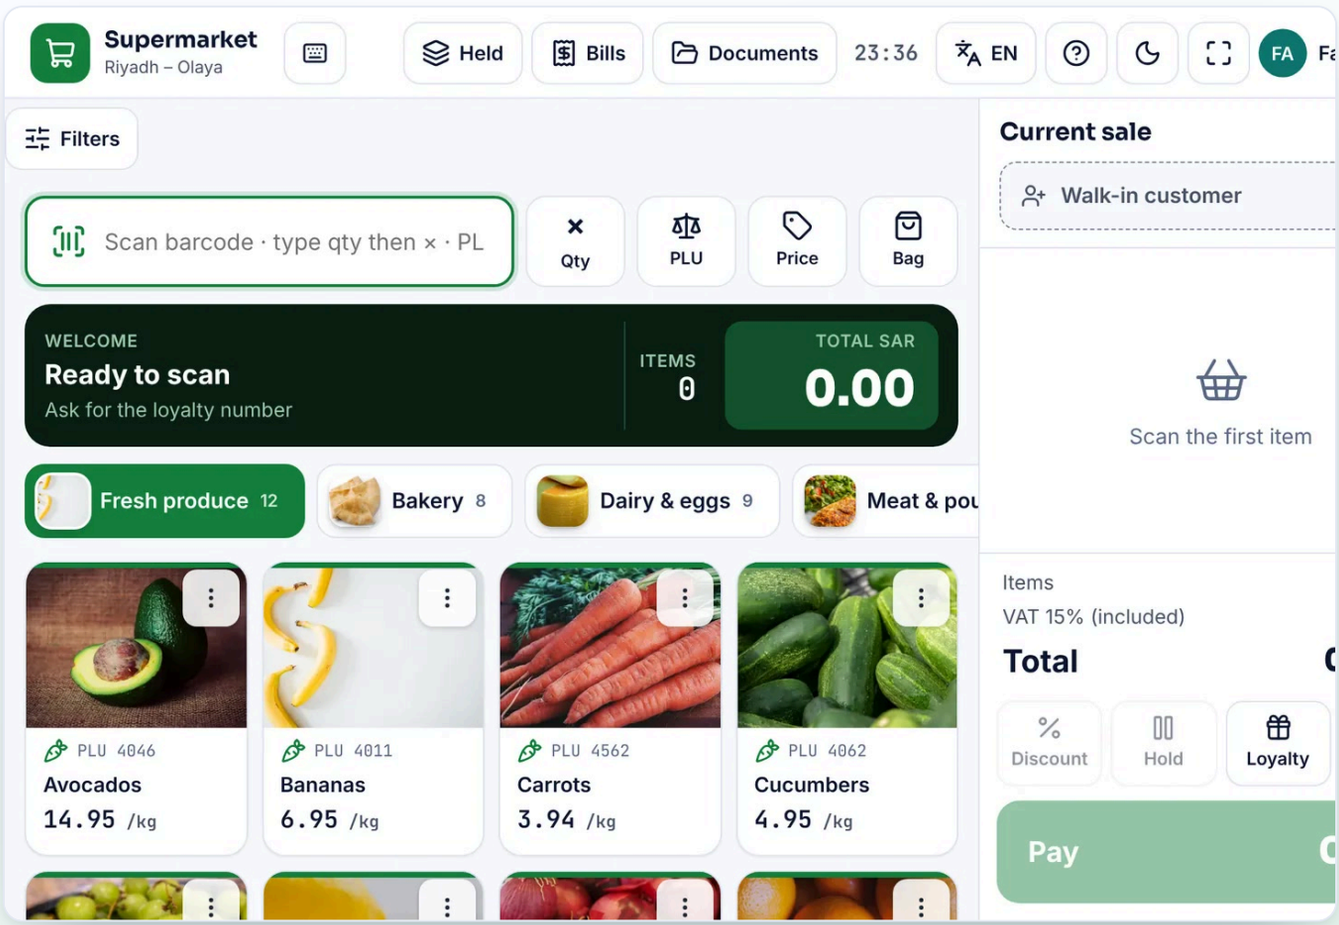

Loyalty points by mobile
Customers earn a point for every SAR 10 spent, found instantly by their mobile number.

Supervisor approval for voids
Voiding a line or a whole sale needs a supervisor PIN, so every cancellation is accounted for.

Price check and customer display
Scan in price-check mode without selling, while a customer panel shows the last item and running total.

Ideal for

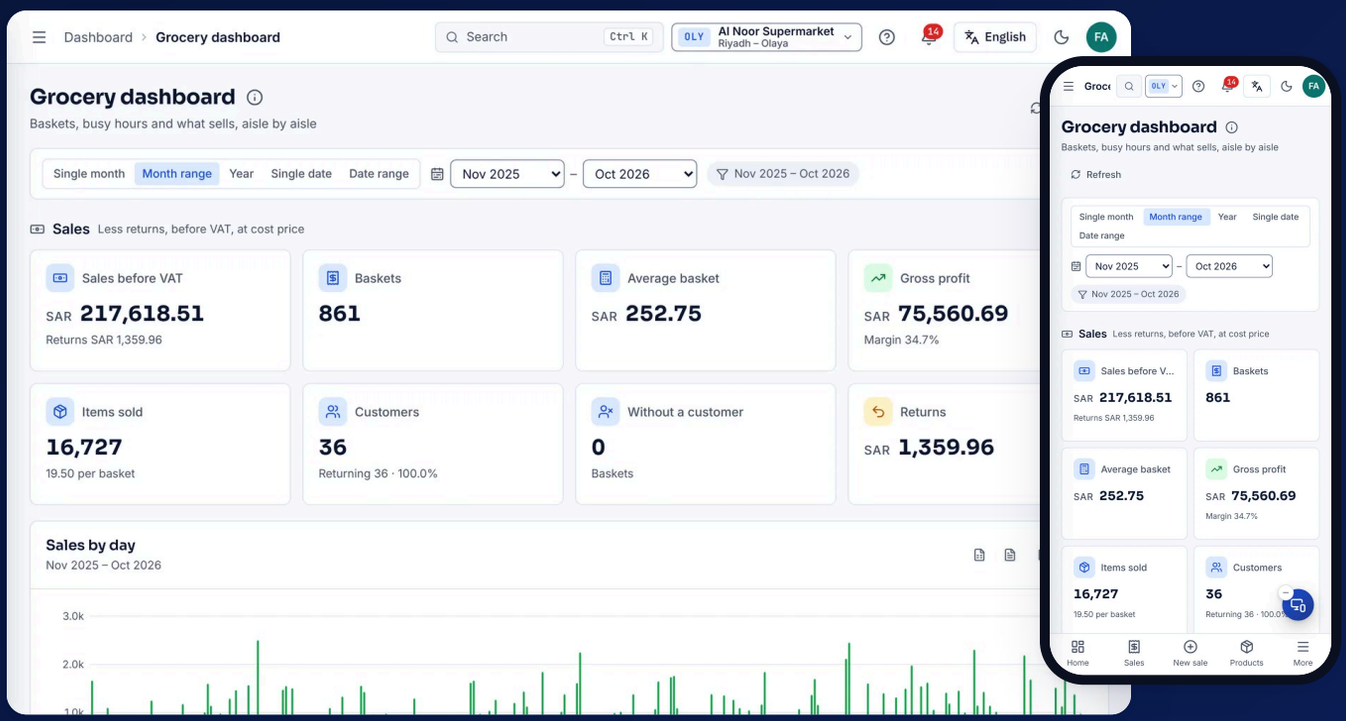

Supermarkets · Hypermarkets · Multi-lane grocery stores · Wholesale cash and carry

COMPLIANCE

ZATCA Phase 2 e-invoicing, built in

- **Cleared and reported.** Tax invoices are cleared and simplified invoices reported, with the status on every invoice.
- **QR code and signed XML** on every invoice, printed or sent on WhatsApp and email.
- **Bilingual tax invoices** in Arabic and English with your CR and VAT numbers.
- **Offline till.** Keep selling when the internet drops; invoices go to ZATCA when you are back online.
- **VAT 15% reports** ready for your return, plus credit and debit notes.

Phase 2 comes with the ZATCA e-invoicing add-on; every store gets the Phase 1 QR code.

Questions owners ask

How do promotions work at the till?
Promotions such as buy 2 get 1 free, multi-buy prices and department discounts are applied automatically as items are scanned, and the total saving prints on the receipt.

Can cashiers cancel items on their own?
Voiding a line or a whole sale asks for a supervisor PIN, which keeps cancellations under control on busy lanes.
