AT THE COUNTER

Made for the way you sell

The vehicle picker opens on Toyota and Lexus: pick Camry, Corolla, Hilux, Land Cruiser, Prado or RAV4 and the year, and see only the parts that fit. Scan 04465-06090 and the genuine Camry pads come up, with the Akebono set that replaces them one tap away, each with its own stock, price and margin.

Genuine and aftermarket side by side

Each aftermarket part names the Toyota numbers it replaces, so the counter offers both and the dashboard shows the margin of each.

Toyota and Lexus models

The vehicle picker starts on the make: Camry, Corolla, Hilux, Land Cruiser, Prado, Fortuner, RAV4, Yaris and Lexus ES, LX and RX.

Search by Toyota part number

Type or scan the part number, the barcode or the name; an aftermarket number finds its genuine part too.

Spare parts dashboard

Genuine against aftermarket sales, top part numbers, sales by section, the reorder list and the stock that is not selling.

Stock by warehouse and rack

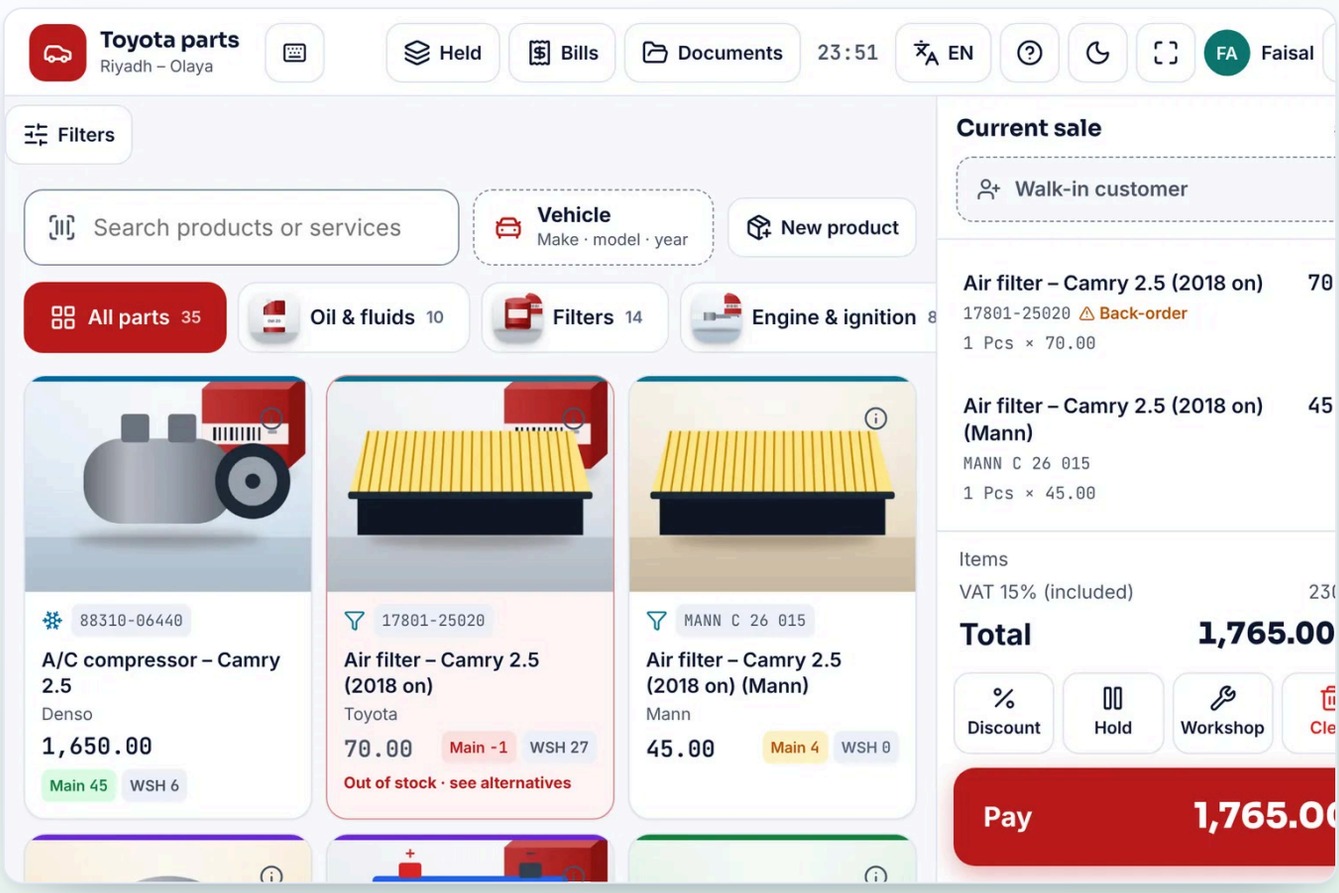

Live stock in the shop and the workshop store with the rack and the minimum of every part.

Counter sale to job card

Send the parts to the workshop with the complaint and a periodic service or brake fitting labour line.

Ideal for

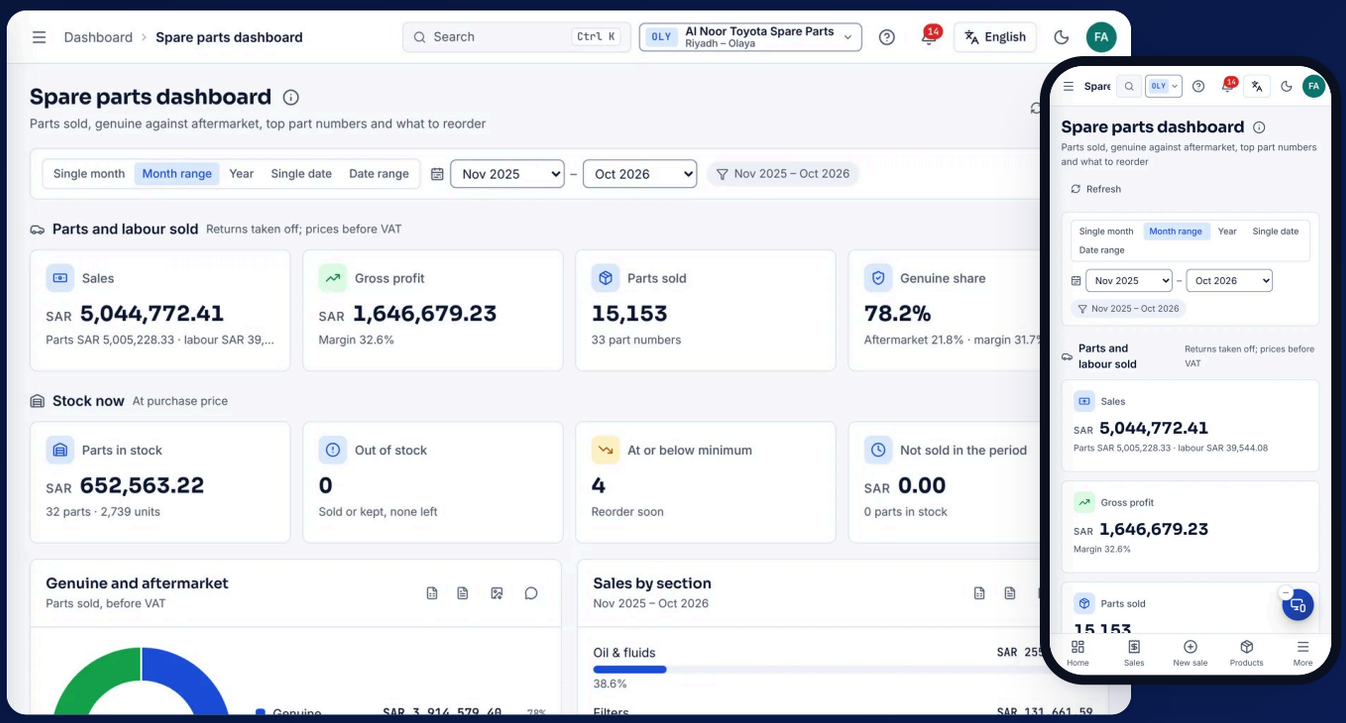

Toyota parts shops · Lexus parts specialists · Hilux and Land Cruiser parts traders · Fleet parts counters

Questions owners ask

Can I sell genuine and aftermarket Toyota parts?
Yes. Mark each part Genuine or Aftermarket; the aftermarket part lists the genuine numbers it replaces, and the dashboard shows the sales and margin of both.

Does it come with Toyota parts already set up?
A new shop starts with common Toyota service and repair parts with their part numbers and fitment, which you can price and extend.
