Customer-first orders
Pick the wholesale, contractor or corporate customer before adding anything.

Credit limits
See limit, outstanding, available credit and invoices over 30 days; a manager PIN overrides.

Price tiers
Retail, wholesale and special prices per customer.

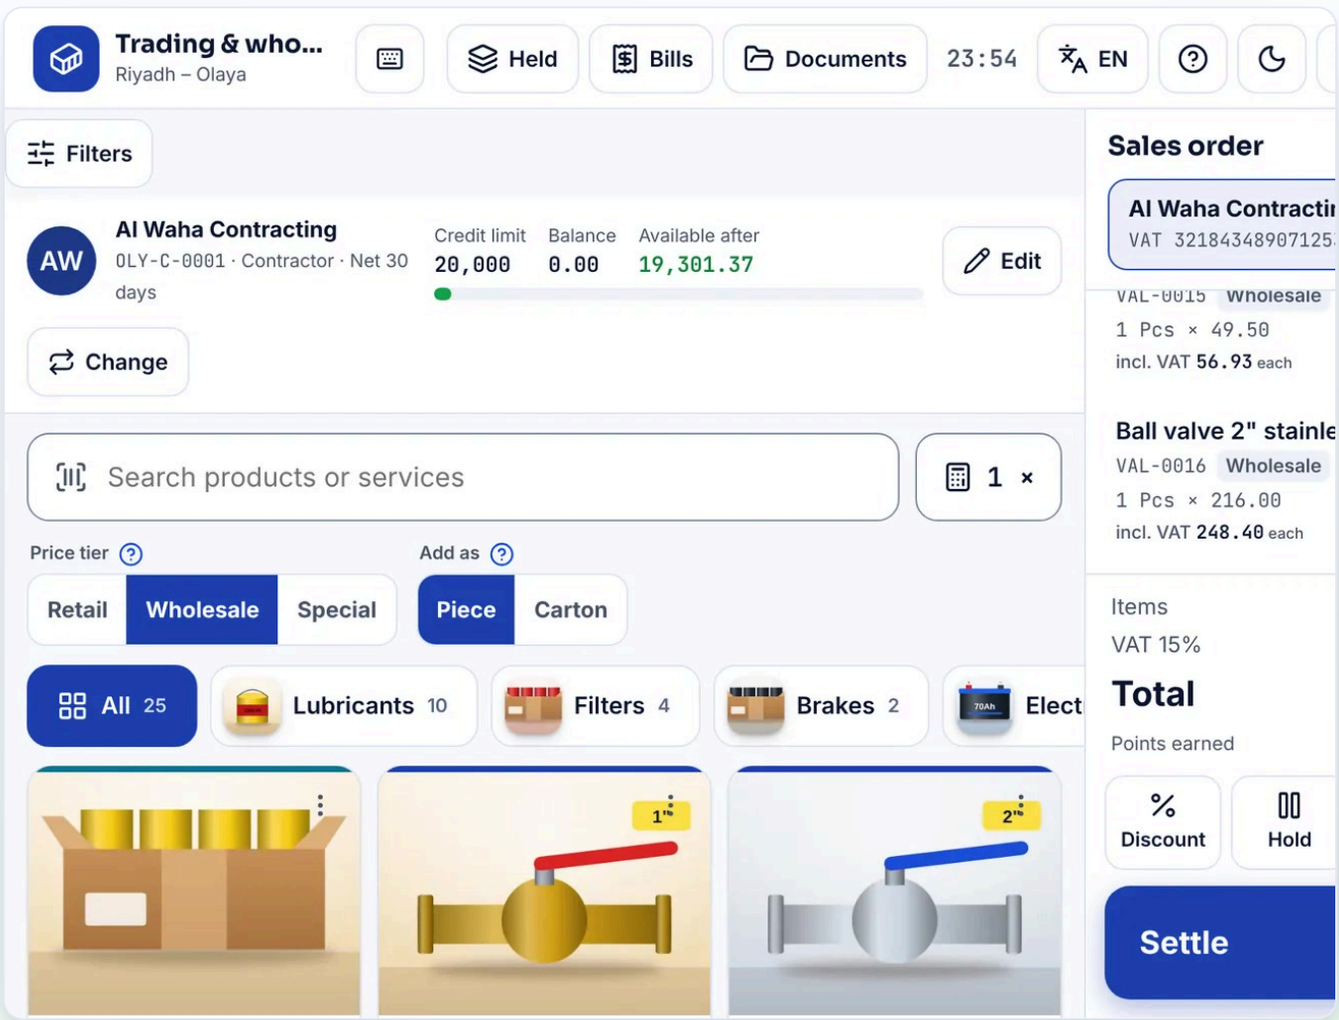

Piece or carton
Sell single pieces or cartons of 12 or 24, with a quantity keypad for big orders.

Quotations and PO numbers
Save quotations to the quotations module and record the customer's PO number.

Questions owners ask

Can the POS stop sales above a customer's credit limit?
Yes. The order shows the customer's limit, outstanding and available credit; a sale above the limit needs a manager PIN.

How do I pay on credit or by cheque?
Payments can be cash, bank transfer, cheque with its number, or on account, and one order can be split across them.
