AT THE COUNTER

Made for the way you sell

Pick the customer's car and the counter shows the floor liners, bulbs, wheels and body kits that fit it, next to the universal dash cams, chargers and care products. Sell the window tint, paint protection film, ceramic coating or audio fitting on the same bill, send the car to the bay with a job card, and see on the Accessories dashboard how much of the month came from fitting work.

What fits the customer's car

Mats, bulbs, wheels, steps and body kits carry the makes, models and years they fit; “Fitting only” hides the rest.

Tint, PPF and coating jobs

Film and coating work are services on the same bill as the goods, with a job card for the bay.

Audio, cameras and lighting

Head units, speakers, subwoofers, dash cams, reversing cameras and LED kits on their own tabs.

Accessories dashboard

Goods against fitting work, top items, sales by section and the reorder list.

Stock by warehouse

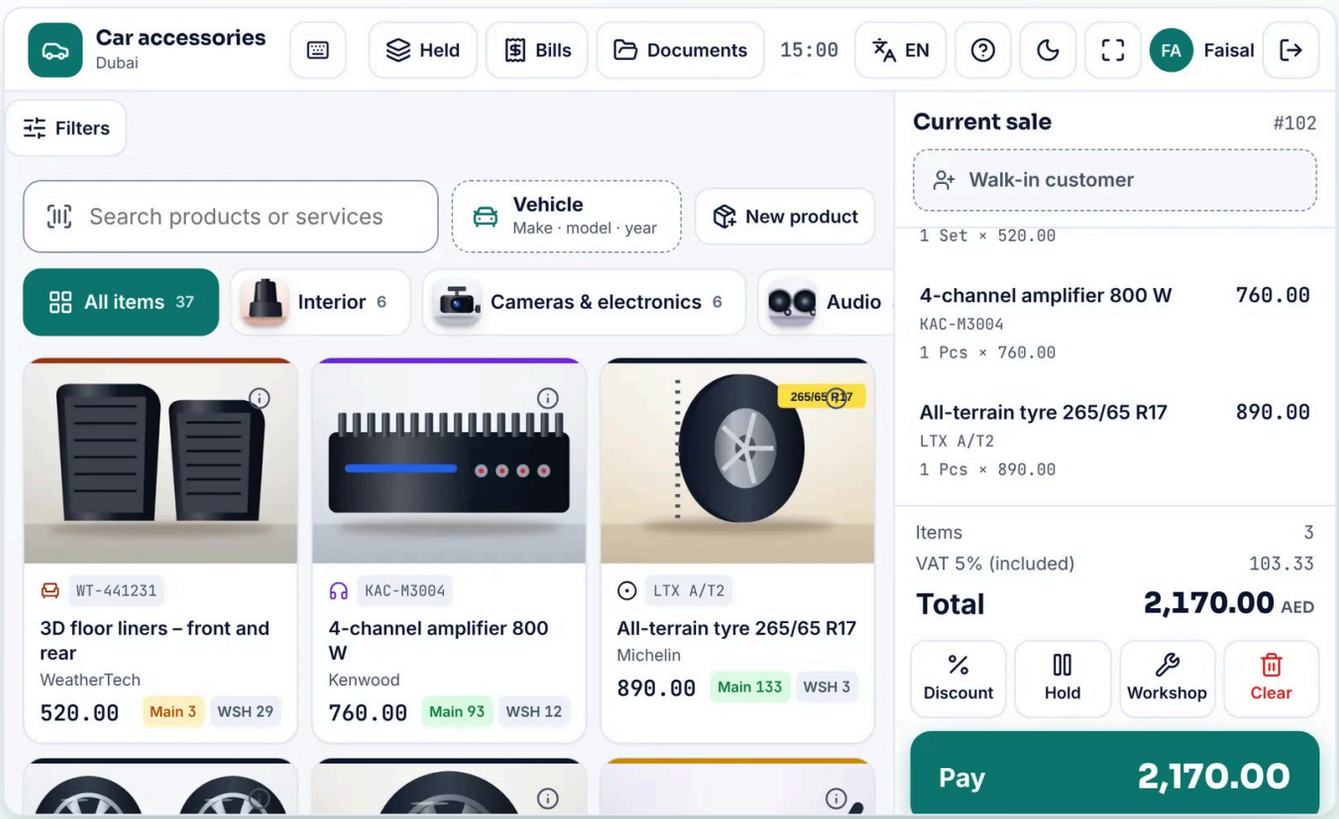

Showroom and store stock live, with a minimum for every item.

Fleets and dealers on account

Dealers and fleets pay on account and get a B2B tax invoice.

Ideal for

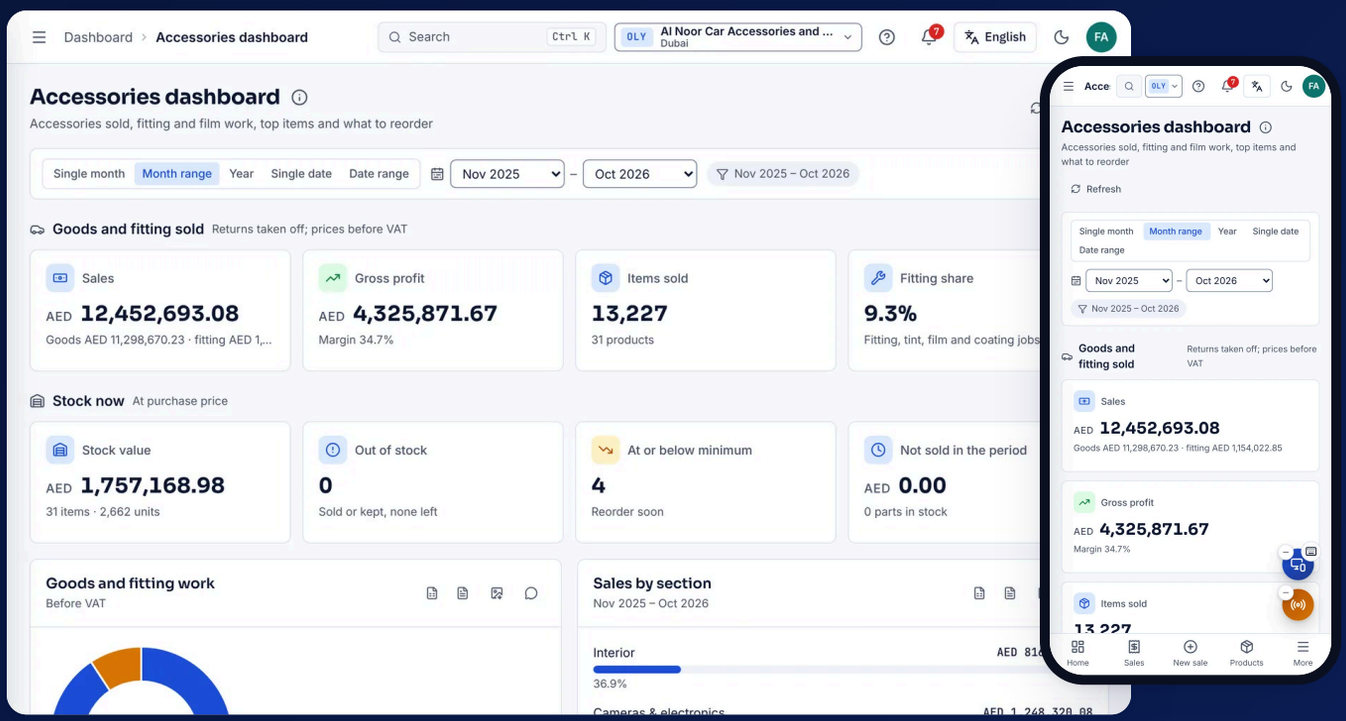

- Car accessories shops
- Tint, PPF and detailing studios
- Car audio and lighting shops
- Off-road and modification garages

Questions owners ask

Can I sell the tint and the fitting on the same bill as the goods?
Yes. Tint, film, coating and fitting are services on the Fitting & film work tab; add them to the sale and send the car to the bay with a job card.

How do I know which wheels fit the customer's car?
Each wheel, mat, bulb or kit keeps the cars it fits; pick the customer's car and turn on “Fitting only”.
