AT THE COUNTER

Made for the way you sell

Weigh the box, tap the lane (air cargo to India, sea cargo to the Philippines, a large door-to-door box) and key in the kilos: the sender, the receiver and their phone, the destination, the airway bill and any cash to collect on delivery go on the receipt. Boxes, tape and bubble wrap scan in from stock, cargo leaving the country is zero-rated, and every shipment moves from booked to shipped, at destination and delivered on the Shipments board, with a WhatsApp update to the receiver at each step.

Rates per kg by country

Air and sea cargo per kg for each destination, door-to-door boxes by size and express documents, at your own rate card; an odd lane takes the rate you quote.

Sender, receiver and airway bill on the receipt

Each shipment asks for the sender, the receiver and their phone, the destination, the airway bill or waybill number and the weight, and prints them on its line.

Cash on delivery

Note the cash your agent collects from the receiver, charge the COD fee, and settle with overseas agents as vendors.

WhatsApp tracking

The Shipments board follows each box from booked to shipped, at destination and delivered, and sends the receiver a WhatsApp update with the waybill and the step.

Boxes and packing from stock

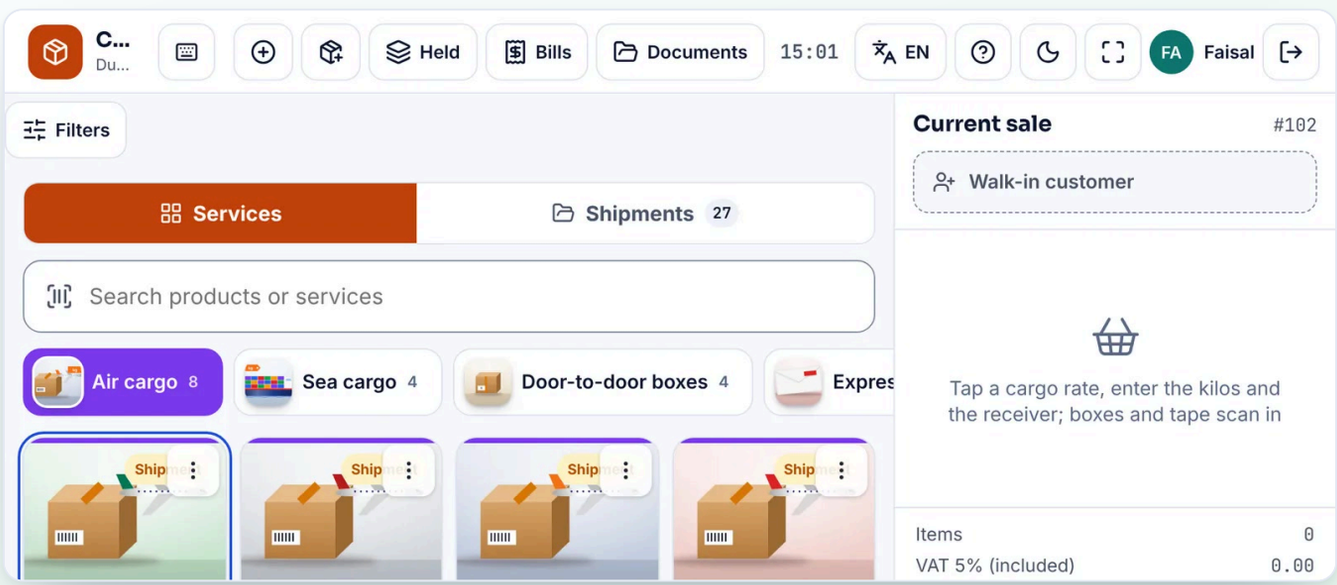

Cargo boxes, tape, bubble wrap and flyer bags are stocked goods: scan them onto the same bill and see what is left.

Cargo dashboard

Bookings by tab, the destinations that sell, cargo against boxes, Friday-evening rush hours and the senders who come back; the Shipments dashboard add-on adds kilos, days to deliver and stuck boxes.

Ideal for

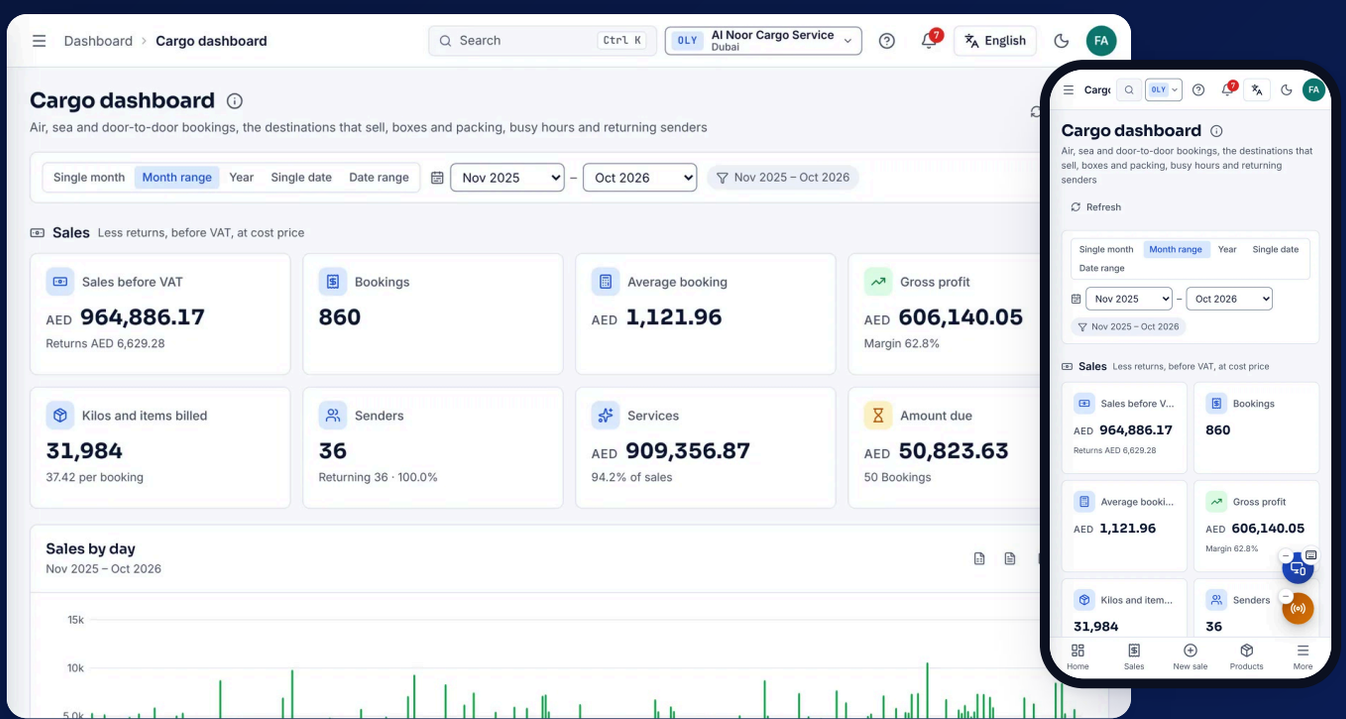

- Door-to-door cargo shops
- Air and sea cargo agents
- Balikbayan box and parcel senders
- Courier counters and parcel shops

YOUR DASHBOARD

COMPLIANCE

UAE VAT, done right

- **Tax invoices** with your TRN, your business customers' TRN and the VAT on every line.
- **VAT 201 return** laid out box by box, with your standard rated sales by emirate.
- **FTA Audit File (FAF)** and the sales and purchase tax register, downloaded in a click.
- **Offline till.** Keep selling when the internet drops; everything syncs when you are back online.
- **Credit and debit notes** and returns, with the VAT reversed for you.

The VAT 201 return and the FTA Audit File come with the VAT return add-on.

Questions owners ask

Can I keep a rate per kg for each country?
Yes. Each lane is a service sold per kg (or per box for door-to-door), with its own price; change the rates on the products list whenever the airline or the shipping line changes theirs.

How does the receiver know where the box is?
Each shipment keeps the receiver's phone. On the Shipments board, mark it shipped, at destination or delivered and press Send update: WhatsApp opens with the waybill number and the step, ready to send.
