AT THE COUNTER

Made for the way you sell

Lease ten vans to a company for a year, hire out a 7-tonne truck for the week and a forklift for two days from one screen: the lessee, unit, dates and odometer at handover print on the tax invoice, fleet services are billed by the vehicle and month, each contract moves from booked to on hire, returned and closed on the Contracts board, and the Fleet dashboard shows the units on hire, utilisation, revenue by kind of contract and the leases ending in the next 30 days.

Long-term leases by the month

Company cars, SUVs, pickups, vans, staff buses, light trucks and tractor heads leased by the month, with the lessee company and the lease's start and end on the line.

Truck, trailer and equipment hire

Pickups, vans, 3 and 7-tonne and refrigerated trucks by the day or week; flatbed, low-bed and car transporter trailers, forklifts, generators and recovery trucks.

Odometer at handover

The odometer is typed when a unit goes out and printed on the invoice, so extra kilometres are billed from a reading both sides agreed.

Contracts board

Each paid lease or hire moves from booked to on hire, returned and closed, with its end date shown, so no unit is left out unbilled.

Fleet dashboard

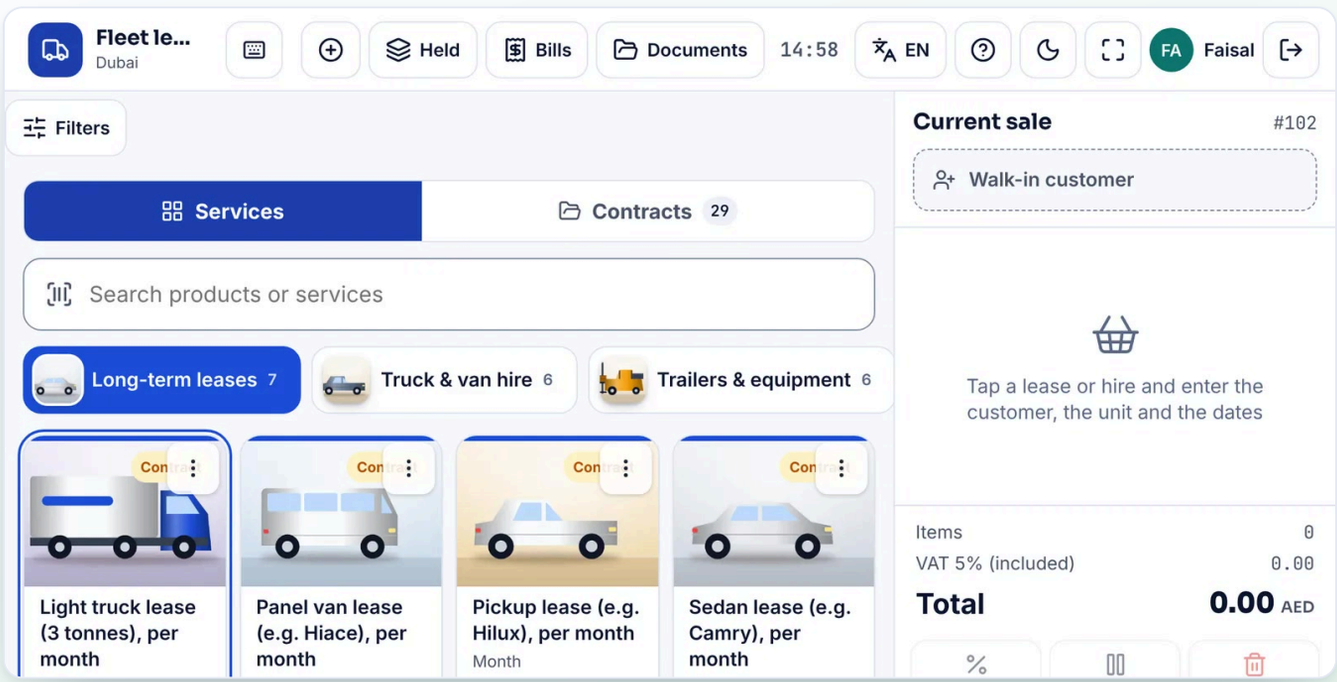

Units on hire and idle, utilisation, revenue by kind of contract, the units hired the most, the leases ending in 30 days and the late returns.

Fleet services and charges

Fleet management, GPS tracking, maintenance packages, replacement vehicle cover and insurance by the vehicle and month; extra km, fuel, late return and damage after return.

Ideal for

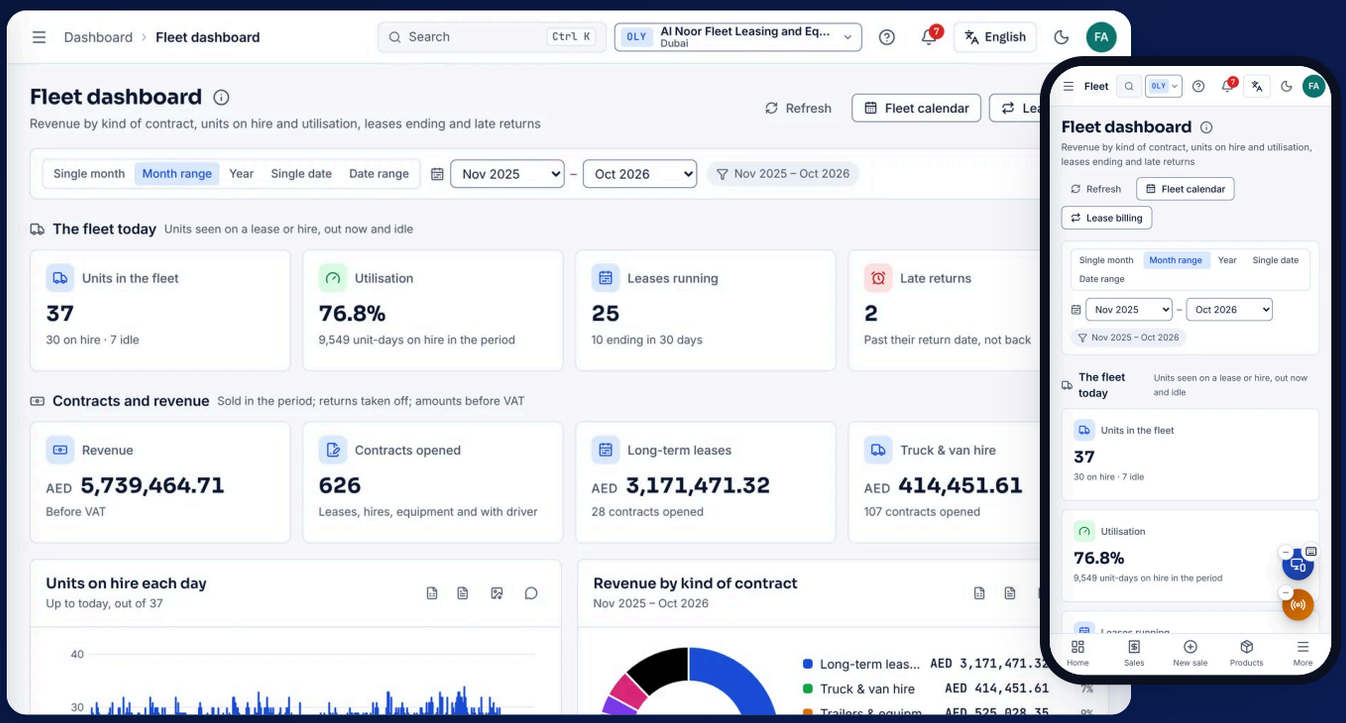

- Corporate fleet leasing companies
- Truck, van and bus rental
- Trailer, forklift and generator hire
- Commercial fleet operators

Questions owners ask

Can I bill each month of a lease automatically?
Yes. With the Recurring contracts add-on each lease keeps its monthly lines, shows the months due and bills each one with one tap, on the company's account.

How do I see which units are free next week?
The Fleet calendar add-on shows every unit's days booked, on hire and returned, flags double bookings and lists the late returns.
