AT THE COUNTER

Made for the way you sell

Ring up a full basket in seconds: scan packaged goods, weigh loose tomatoes by the kilo and put regular customers on their monthly account, all on a VAT-compliant receipt.

Scan or search in one box
One search box matches barcodes, product codes and names, so the cashier never switches screens.

Fruit and veg by the kilo
Sell loose produce by weight with quick 0.25, 0.5, 1 and 2 kg presets or any exact weight.

Customer credit book (daftar)
Charge a sale to a regular customer's account and see every unpaid balance in one list.

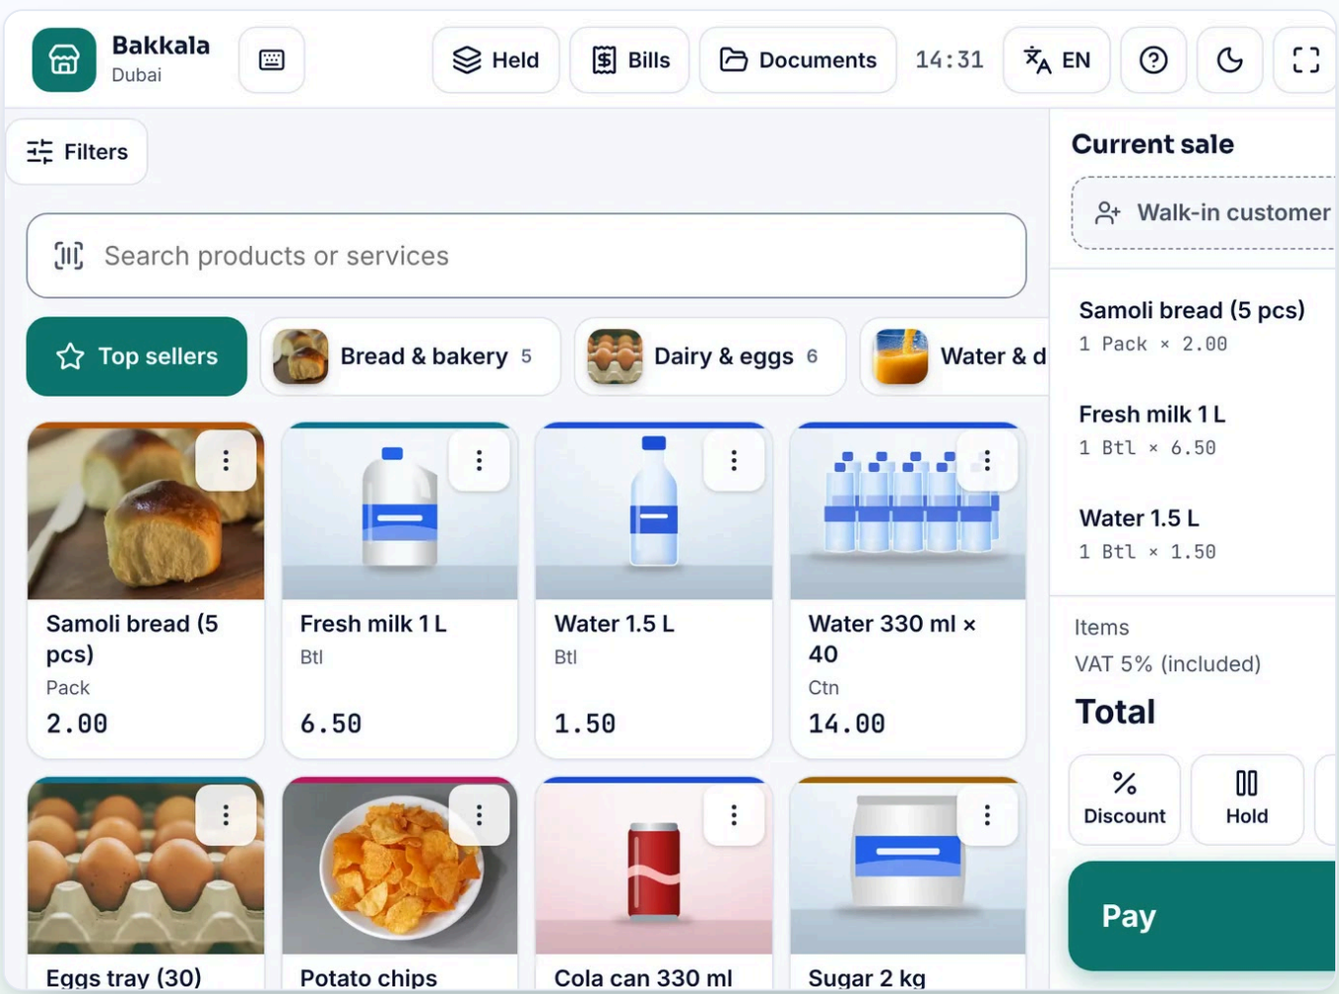

Top sellers one tap away
A top-sellers tab keeps bread, milk, water and eggs on screen for the fastest checkout.

Cards and Apple Pay
Take cash, cards, Apple Pay or 'on account', and split one bill across methods.

Hold and recall baskets
Park a basket while a customer fetches one more item, serve the next person, then recall it.

Ideal for

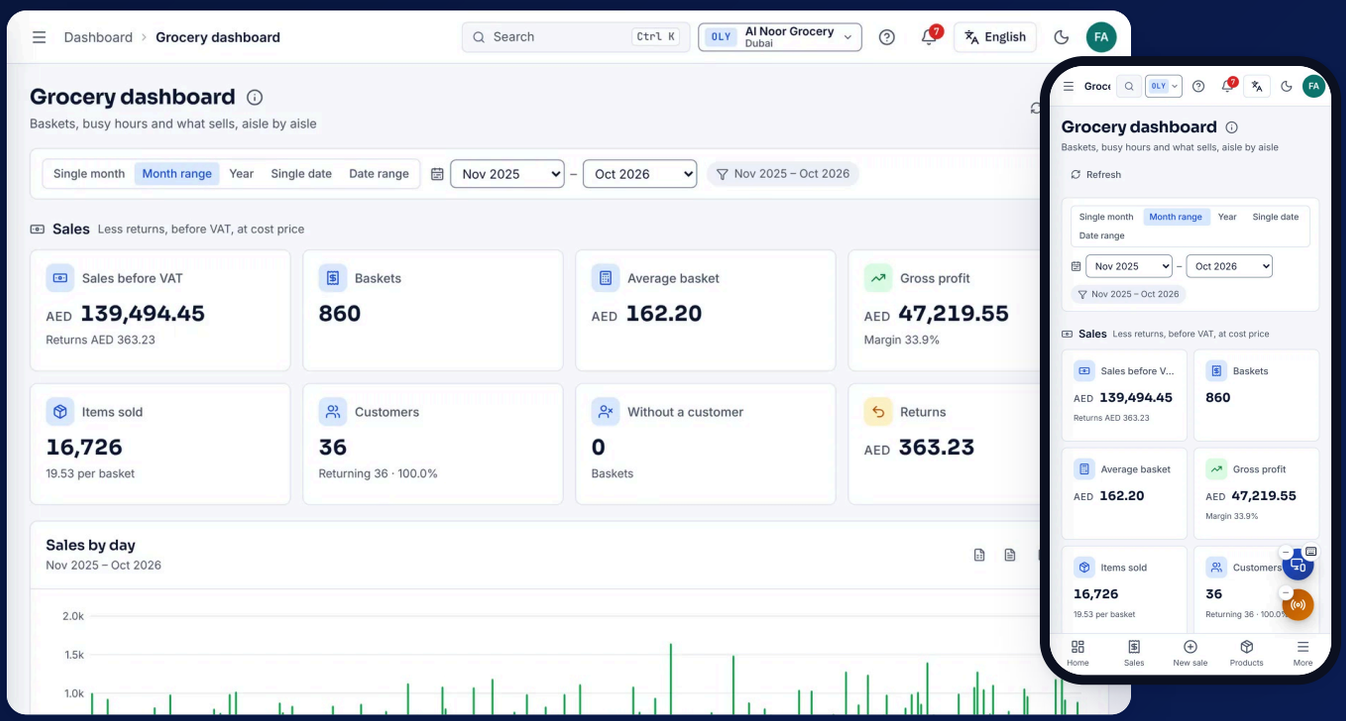

Neighbourhood bakalas · Mini markets · Fruit and vegetable shops · Bakery counters

COMPLIANCE

UAE VAT, done right

- **Tax invoices** with your TRN, your business customers' TRN and the VAT on every line.
- **VAT 201 return** laid out box by box, with your standard rated sales by emirate.
- **FTA Audit File (FAF)** and the sales and purchase tax register, downloaded in a click.
- **Offline till.** Keep selling when the internet drops; everything syncs when you are back online.
- **Credit and debit notes** and returns, with the VAT reversed for you.

The VAT 201 return and the FTA Audit File come with the VAT return add-on.

Questions owners ask

Can I sell vegetables by weight?
Yes. Weighed items ask for the weight in kilograms, with presets for common amounts, and the price is calculated per kilo on the receipt.

Can regular customers pay at the end of the month?
Yes. Choose 'on account' at payment and the sale goes into the customer's credit book. You see each customer's unpaid balance and collect it later.
