AT THE COUNTER

Made for the way you sell

Sell a crystal chandelier off the floor with its finish and size on the invoice, or take a made-to-order chandelier from the factory with a 50% deposit and a promised day. The order moves from at the supplier to ready and installed on the Orders board, and the Showroom orders dashboard shows what is overdue and what is still to collect.

Every light with its specs

Light colour, size, wattage and finish show under each product and work as POS filters, with real pictures for every category and brand.

Special and factory orders

Custom chandeliers, catalogue factory orders and special finishes take the customer, site, finish and promised day, with the deposit as a part payment.

Design and installation

Lighting design consultations, chandelier installation, light points and smart lighting programming are services on the same invoice.

Showroom orders dashboard

With the Showroom orders & fittings add-on: orders by stage, the overdue ones, the next 14 days, days to ready and the balance after deposits.

Scan or tap, with pictures

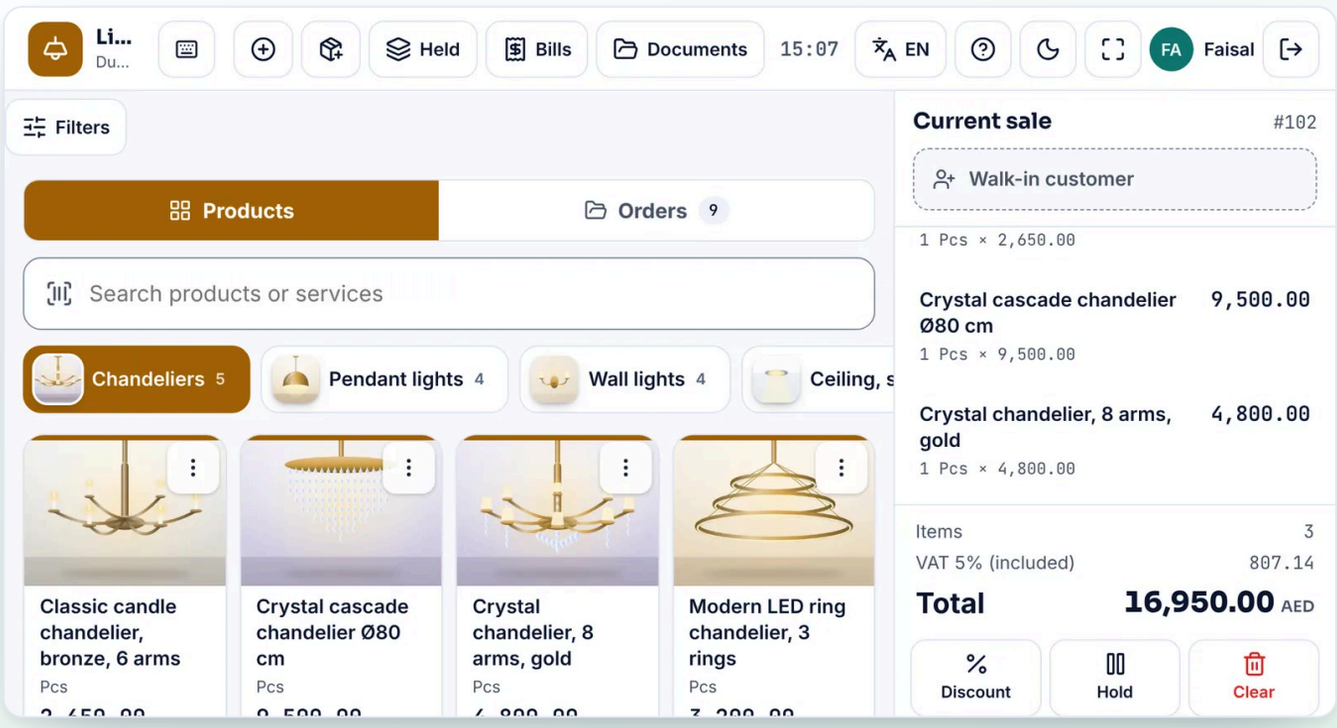

Scan a bulb's barcode or tap a chandelier's picture; categories and brands show pictures too, and you can upload your own.

FTA invoices with deposits

Every sale, deposit and installation prints on a VAT-ready tax invoice in Arabic and English.

Ideal for

- Chandelier and designer lighting showrooms
- LED and smart lighting shops
- Lighting suppliers to villas and hotels
- Electrical and lighting traders
