AT THE COUNTER

Made for the way you sell

Seat guests on a live table map, send each dish to the right kitchen station, take delivery orders with the driver and address, and split the bill however the table wants.

Live table map
Indoor, family section and outdoor areas show seats, covers, status and time since seating.

Dine-in, takeaway and delivery
Delivery orders record the source, app order number, address and your own or the app's driver.

Kitchen tickets per station
Orders split automatically into tickets for the grill, kitchen and drinks stations.

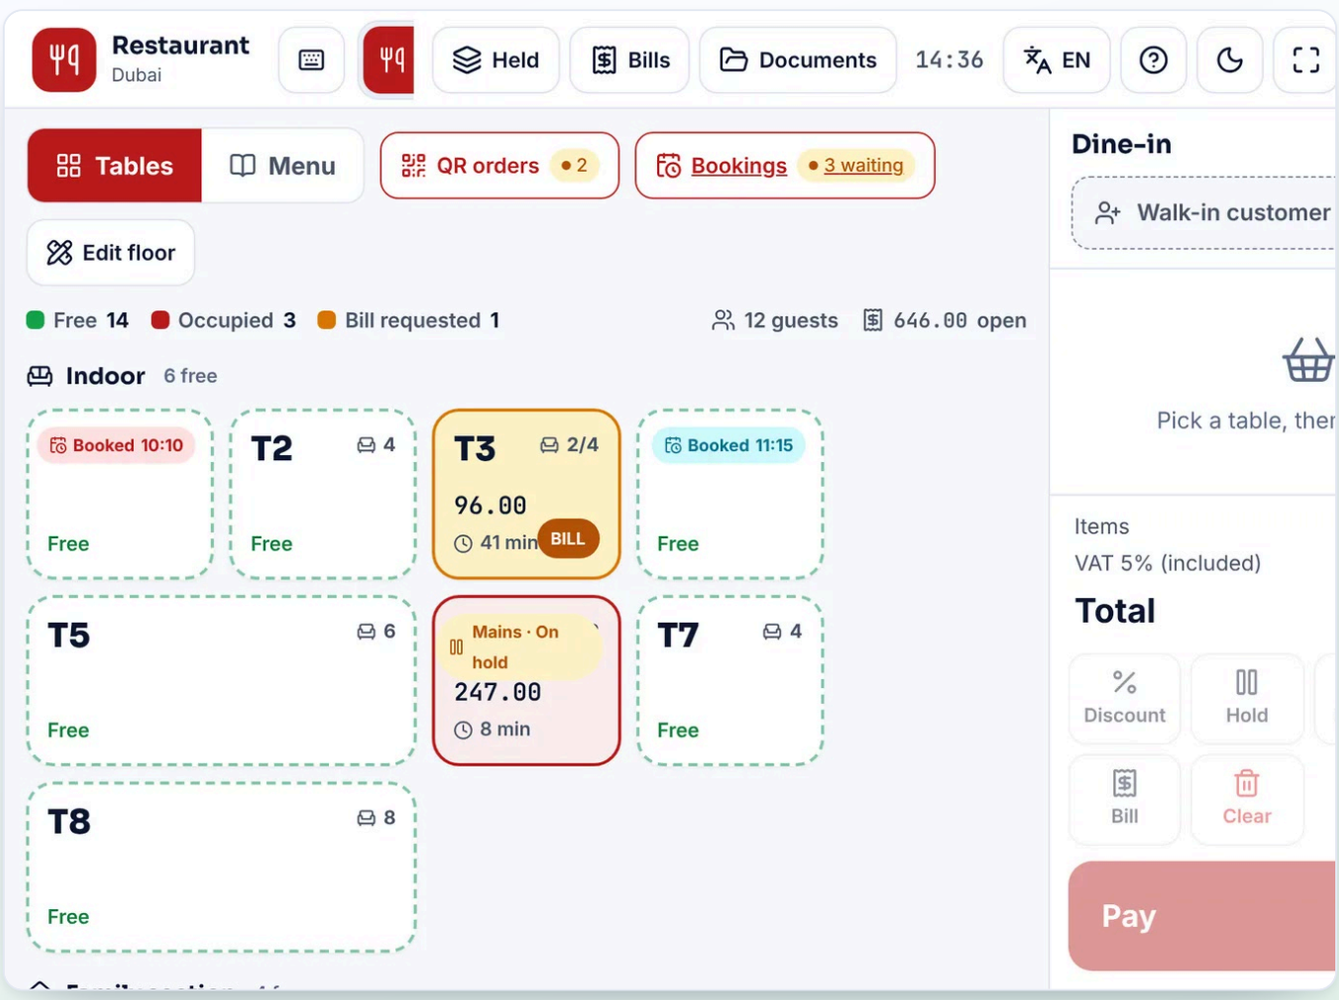

Modifiers and notes
Portions, rice type, doneness, spice level, sides and add or remove options on every dish.

Split bills and tips
Split equally or by items, let guests pay part of a bill and add an optional tip.

Move tables and guests
Open a table with the guest count and switch tables without re-entering the order.

Ideal for

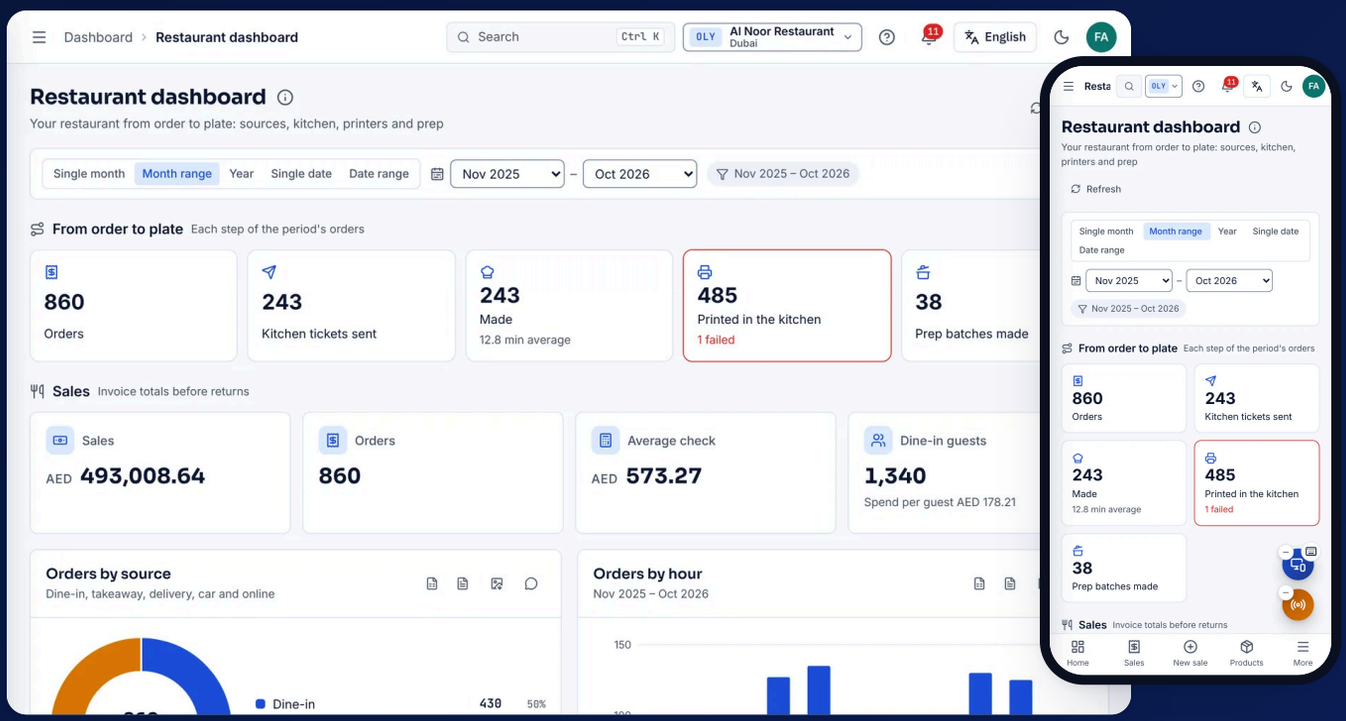

Family restaurants · Grills and mandi houses · Fast casual · Cloud kitchens

YOUR DASHBOARD

Your business at a glance

Sales, profit and what sells, in your own words, on the computer and the phone.

COMPLIANCE

UAE VAT, done right

- **Tax invoices** with your TRN, your business customers' TRN and the VAT on every line.
- **VAT 201 return** laid out box by box, with your standard rated sales by emirate.
- **FTA Audit File (FAF)** and the sales and purchase tax register, downloaded in a click.
- **Offline till.** Keep selling when the internet drops; everything syncs when you are back online.
- **Credit and debit notes** and returns, with the VAT reversed for you.

The VAT 201 return and the FTA Audit File come with the VAT return add-on.

Questions owners ask

Does it print kitchen order tickets?
Yes. Each order is split into kitchen tickets by station, for example grill, kitchen and drinks, so every section only sees its own dishes.

Can I take orders from delivery apps?
Yes. Delivery orders record where they came from, the app's order number, the address and whether your own driver or the app's driver delivers.
