SOUND FAMILIAR?

01

Your data is locked in desktop software

Most Saudi SMEs still run offline desktop apps. Years of sales, stock and customers sit on one PC, out of reach of the owner and of AI.

02

Every branch runs its own software

Separate, unlinked systems mean no shared stock, sales or accounts, and no easy transfers between stores.

StartERP fixes both, in one place.

StartERP
AI BUSINESS OS

StartERP
AI BUSINESS OS

One AI business OS for every branch.

StartERP moves your business off old desktop software, runs every branch on one platform and lets you talk to your own data.
